LETTER FROM TRIO STUDENT SUPPORT SERVICES PROJECT DIRECTOR

Greetings, TRIO Family! This report generally referred to as the annual quantitative and qualitative report for the TRIO Student Support Services Project will tell the story of the final grant year for the 2015-2020 SSS-Project. The final grant year is 2019-2020.

During 2019-2020, we focused on the main objectives of SSS which are persistence, good standing, and bachelor's degree attainment. In addition, we used the Competitive Preference Priorities set by the United States Department of Education to drive the grant which meant addressing the following developments:

1(a) Influencing the Development of Non-Cognitive Factors
1(b) Non-Cognitive Factors Supported by Moderate Evidence of Effectiveness
2(a) Providing Individual Counseling for Personal, Career, and Academic Matters
2(b) Individual Counseling Activities Based on Moderate Evidence of Effectiveness

This report provides a thorough analysis of the services that TRIO Student Support Services is committed to providing for 250 SSS-participants. This report provides the reader with some historical narrative of the project, how the organizational structure is situated, the mission and vision, and the main core values.

I have been a social justice curriculum specialist for more than thirty years. I am still a faculty member who writes curriculum and teaches graduate level courses in social justice and equity to K-12 teachers all over the state of Kansas. This viewed through a social justice perspective which is why it was originated. It was designed to transform society by including those who typically live in the margins. For example, those with limited-education, limited-income and of disability status.

Dr. Linda F. Rhone, SSS Director
Social Justice & Equity Curriculum Specialist
Wichita State University

HISTORY OF FEDERAL TRIO PROGRAMS

The history of TRIO is progressive and promotes academic support and social change by ensuring that students from disadvantaged backgrounds, those who typically live in the margins of society, have an equal chance of completing a college degree and becoming career ready. A timeline of how the Federal TRIO Projects have made progress:

- 1964—**Upward Bound** born out of the Economic Opportunity Act of 1964
- 1965—**Talent Search** was created as part of the Higher Education Act
- 1968---**Student Support Services**, originally known as Special Services for Disadvantaged
- Students, was authorized by the Higher Education Amendments and became the third in a series of educational opportunity projects
- Late 1960s—The term "TRIO" was coined to describe these federal projects
- 1972—**Educational Opportunity Centers**, initially known as the Training Programs for Special Programs Staff and Leadership Personnel
- 1976—Education Amendments authorized the **Training Program for Federal TRIO Programs**
- 1986—**Ronald E. McNair Postbaccalaureate Achievement Program** to address the need for specific instruction in the fields of math and science.
- 1990—**Upward Bound Math/Science** program (applied for separately from the Ronald McNair Program
- 2001—**Omnibus Consolidated Appropriations Act amended the Student Support Services (SSS) project** to permit the use of program funds for direct financial assistance (Grant Aid) for
- current SSS participants who are receiving Federal Pell Grants
- **2020--TRIO SSS** changed drastically (as did the rest of the world) in operations due to Covid-19. From March 2020 until mid-August 2020, the main Wichita State University was virtually closed. The SSS program provided services virtually and staff worked remotely. These were: tutoring, academic advising, and career counseling.

The legislative requirements for all Federal TRIO Programs can be found in the Higher Education Act of 1965, Title IV, Part A, Subpart 2. The requirements for the SSS Grant Aid can be found in Public Law106-554.

Source: U.S. Department of Education website: https://www2.ed.gov/about/offices/list/ope/trio/triohistory.html

PROGRAM DESCRIPTION

Through a United States Department of Education competitive TRIO Student Support Services Grant, Wichita State University (SSS) was awarded a $2,078,830.00 to serve 250 participants over a five-year period. More specifically, the SSS grant is awarded to institutions of higher education for the populations of first-generation, limited-income, and students of disability status.

Student Support Services (SSS) projects may also provide grant aid to current -SSS participants who are receiving Federal Pell Grants (# 84.063). The main goal of SSS is to increase college retention, support and sustain attendance, and graduate participants who are committed to graduating with a college degree and working to create and maintain an equitable society. While participating in the SSS project, participants are given opportunities (through scholarly articles, videos, and workshops) to grow in their understanding of social justice and equity.

TYPES OF PROJECTS

Every TRIO Student Support Services project is created to provide academic tutoring, which may include instruction in reading, writing, study skills, mathematics, science, and other subjects; advice and assistance in postsecondary course selection, assist students with information on both the full range of student financial aid programs, benefits and resources for locating public and private scholarships; and assistance in completing financial aid applications. Education or counseling services designed to improve the financial and economic literacy and assist students in applying for admission to graduate and professional programs; and assist students enrolled in two-year institutions and applying for admission to and obtaining financial assistance for enrollment in four-year programs. The SSS projects **may also** provide individualized counseling for personal, career, and academic information, activities, and instruction designed to acquaint students with career options; exposure to cultural events and academic programs not usually available; mentoring programs, securing temporary housing during breaks for students who are homeless youths and students who are in foster care or are aging out of the foster care system.

- Organizational Chart
- Mission
- Vision
- Core Values

HISTORY

1970 – Funding for the Special Services Program is received to provide academic support services to program participants. The Boeing Company Scholarship is established.
1976 – Jo Gardenhire, Associate Director, writes a proposal incorporating services to students with disabilities at Wichita State University. The proposal is funded.
1979 – The project's name is changed to Operation Success from Project Together. The Annual Cultural Spring Fling is introduced by Mario Ramos, third director of Operation Success.
1980 – The First Annual Tutor Awards and Recognition Banquet is introduced by Dr. Deema de Silva.
1985 – Dr. Deema de Silva becomes director of Operation Success. The first annual report for accountability, "The Program Overview and Accountability Report," was printed.
1986 – Jess Cornejo Endowed Scholarship is established.
1990 – The Tutorial, Cultural and Academic Enrichment, and Research and Evaluation components are created.
1992 – Dr. Christine Thelen Endowed Scholarship is created.
1995 – The project's name is changed to Student Support Services from Operation Success. Marion Hicks Endowed Scholarship is created.
1996 – The project's three main components are retitled to: 1) Tutoring and Training, 2) Educational and Communication, and 3) Tracking and Evaluation components. The Philip & Gloria Farha Endowed Scholarship is created.
1997 – Elenore Rudd Endowed Scholarship is created.
1998 – Marti Farha Ammar Endowed Scholarship and the Poor Charitable Foundation Scholarships are created.
2001 – Clark and Rowena Ahlberg Scholarship and the Dr. Harshini de Silva Endowed Memorial Scholarship are established.
2004 – 25th Silver Anniversary Award and Recognition Banquet is held. The Quantitative and Qualitative (Q&Q) Evaluation Report is introduced.
2005 – SSS collaborates with EOC on Cultural Spring Fling event. Boeing Scholarship is increased and Poor Charitable Foundation funds are continued.
2006 – SSS project grant is renewed and 13 students receive the Farha Memorial Scholarships.
2007 – 20 students receive Rudd scholarships.
2009 – Former SSS graduate To-Nga Huynh, PharmD, donates the first graduate scholarship.
2010 – SSS Technology Learning Lab is upgraded. A memorial scholarship is named for Antoine Toubia.
2011 – Dr. Dai Phan, a former SSS tutor, is featured speaker for the Awards and Recognition Banquet and announces the donation of a scholarship to assist program participants.
2012 – Leon Trammell, Tramco Incorporated founder, is featured speaker for the Awards and Recognition Banquet and makes a generous scholarship donation for program participants.
2013 – WSU-SSS joins MAEOPP efforts to identify Best Practices. Wichita State President John Bardo is the featured speaker at the Awards and Recognition Banquet.
2014 – This year marks the 44th year of SSS project at Wichita State University. The 35th Awards and Recognition Banquet is held with Deltha Q Colvin as the featured

speaker. Dr. Deema de Silva retires and is honored for 34 years of distinct service to Student Support Services.

2015 – Dr. Kennedy Musamali joins SSS as the new Program Director. SSS grant proposal is submitted and funded for 5 years. College Reading and Learning Association (CRLA) certification for SSS tutors renewed for an additional 5 years.

2016 – SSS collaborates with Disability Support Services and McNair Scholars Program to host a First-Generation Welcome Mixer at WSU. This year marked the 46th year of SSS program at Wichita State campus. Celebrated student achievement at the 37th Awards and Recognition Ceremony. Ms. Charity Lowe, a former TRIO alumnus, moves from SSS Senior Administrative Assistant to Academic Advisor position.

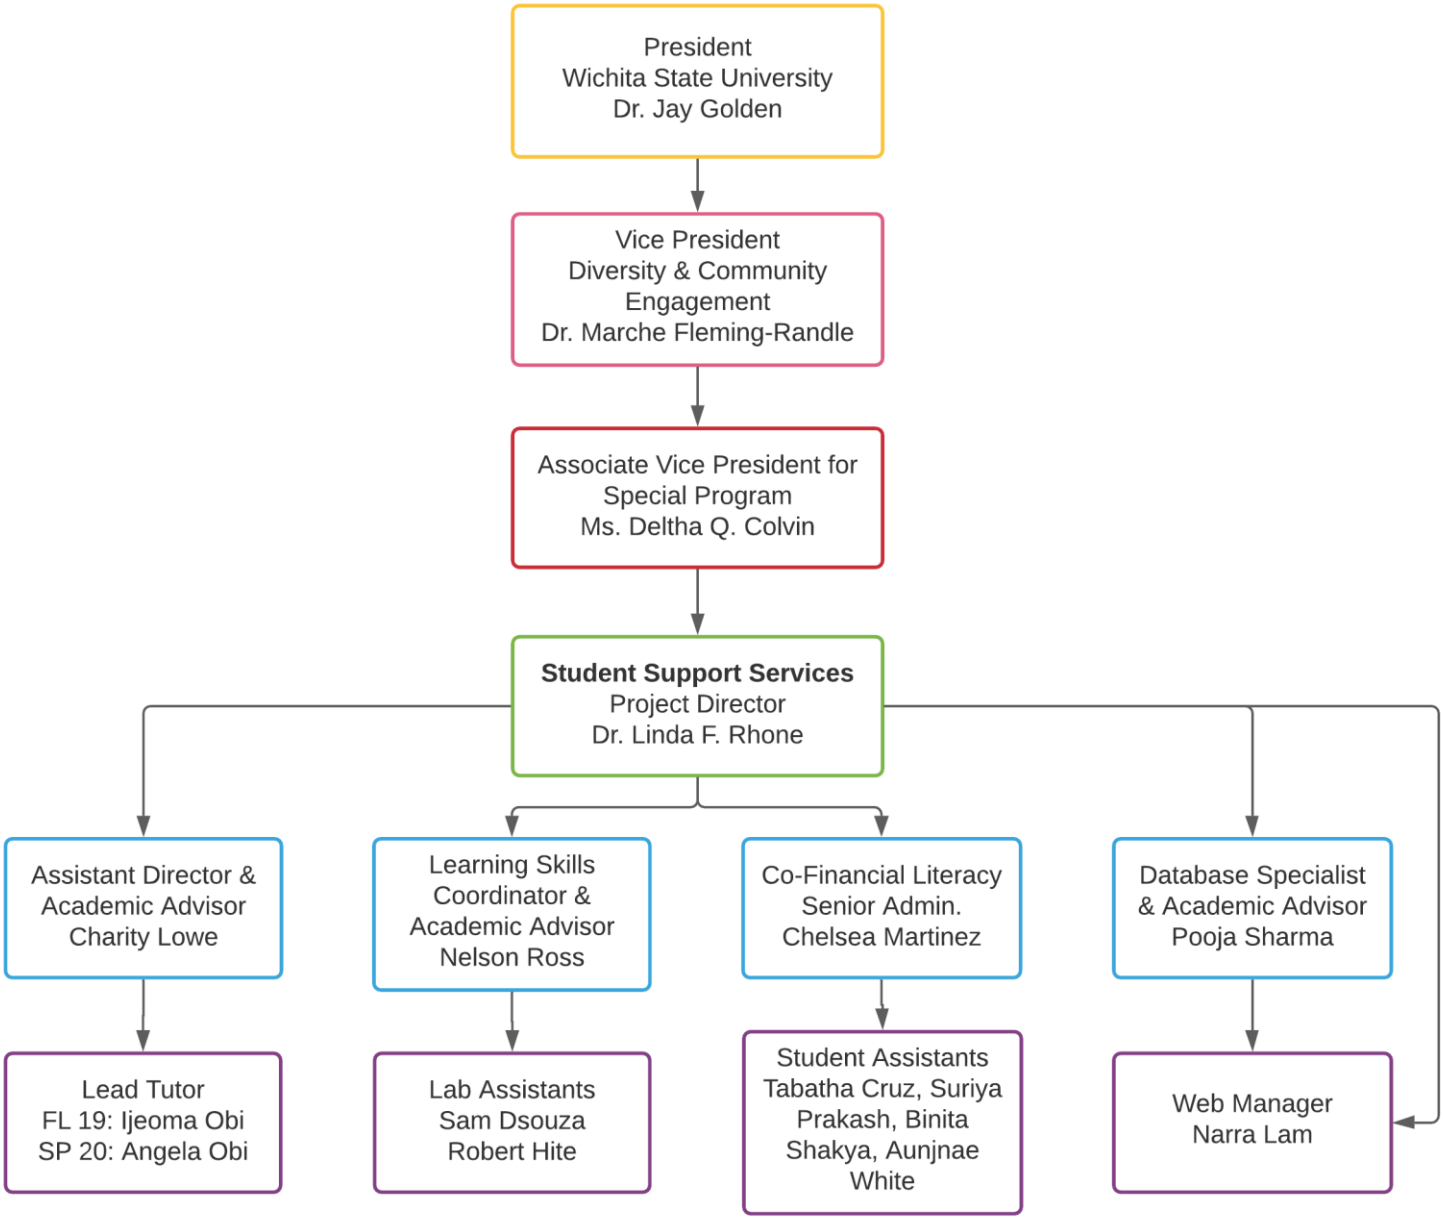

2017 – Celebrated student achievement at the 38th Awards and Recognition Ceremony. Ms. Charity Lowe is promoted to Assistant Director from Academic Advisor/LSTC Coordinator. Ms. Pooja Sharma joins SSS professional staff as the new Database Specialist/Academic Advisor. Mr. Nelson Ross joins SSS professional staff as the Academic Advisor/LSTC Coordinator. Ms. Laurie Solberg joins SSS professional staff as the Senior Administrative Assistant.

2018 – Celebrated the 50th anniversary of TRIO SSS and student achievement at the program's 39th Awards and Recognition Ceremony. The anniversary marked 50 years of TRIO SSS programs nationwide. SSS programs were first established in the 1968 reauthorization of the Higher Education Act, to begin President Lyndon B. Johnson's goal of seeing that "no American talent is wasted." Remarks were made at the event by Dr. Marché Fleming-Randle the first African American Female Vice President for Diversity & Community Engagement at Wichita State University and Ms. Deltha Q. Colvin the Associate Vice President of Non-Traditional Students. Ms. Colvin is an Upward Bound Program alumni at WSU and a mastermind behind the successful growth ofTRIO programs at WSU for over 50 years. The SSS program has successfully served students at Wichita State University since 1970.

2019 – Dr. Linda F. Rhone joins SSS as the new Project Director.
The SSS Proposal was written by L. Rhone, submitted and funded by the United States Department of Education, over $2 million dollars have been released for the SSS cycle of 2021-2025. The College Reading and Learning Association (CRLA) re-certification application for the SSS Tutoring Program was written and submitted by L. Rhone. The WSU CRLA application was accepted and approved, so that Tutoring component of SSS has been re-certified from 2021-2025.

2020 - TRIO Student Support Services conducted its 41st graduation celebration. The celebration was virtual. The speakers were Dr. Kevin Harrison, WSU community engagement coordinator, military and veterans affiliate, and Ms. Deltha Q. Colvin, associate vice president for special programs. In March of 2020, Wichita State University abruptly changed to a virtual campus due to a world pandemic (Covid-19). TRIO SSS-staff worked remotely (via Zoom) with SSS participants for academic advising and wellness checks. SSS Tutors offered tutoring (via Zoom) to SSS tutees.

ORGANIZATIONAL CHART

MISSION

To provide academic support services that help first-generation and limited-income students, and students with disabilities to successfully persist and graduate from Wichita State University

VISION

To become a model of excellence in assisting first-generation and limited-income students, and students with disabilities to successfully persist and graduate from college

CORE VALUES

Committed to providing efficient, effective, and excellent service to students

Measurable Goals and Objectives

Section 3

IN THIS SECTION:

- Overview of Project Goal and Objectives
- Number of Students Served
- Objective A: Persistence
- Objective B: Good Academic Standing
- Objective C: Bachelor's Degree Attainment
- Qualitative and Quantitative Summary 2019-2020

OVERVIEW OF PROJECT GOALS AND OBJECTIVES

This section provides an overview and extent to which program goals and objectives were achieved.

Goal: The extent to which the project has met the administrative requirements at the grantee institution. The conditions for the administrative requirements are as follows:

Serve two hundred and fifty (250) first-generation, limited income students or students with disabilities annually. Ensure that a minimum of 67% (168) are both low-income and first-generation students or individuals with disabilities; and 33% (82) are either low-income, first generation students or individuals with disabilities.

Goal: The extent to which project participants persisted toward completion of the academic programs in which they were enrolled.

Objective 1: *74% (185) of all participants served by the SSS Project will persist from one academic year to the beginning of the next academic year or will have earned a bachelor's degree at the grantee institution during the academic year.*

Goal: The extent to which project participants met academic performance levels required to stay in good academic standing at the grantee institution.

Objective 2: *93% (233) of all enrolled SSS participants being served will meet the performance level required to stay in good academic standing (GPA 2.0 & above) at the grantee institution.*

Goal: The extent to which project participants graduated.

Objective 3: *37% (27) of new participants served each year will graduate from the guarantee institution with a bachelor's degree or equivalent within six (6) years.*

SSS OBJECTIVES ATTAINMENT

Persistence Rate
89%

Good Academic Standing
96%

Bachelor's Degree Attainment
54%

NUMBER OF STUDENTS SERVED

Goal: The extent to which the project has met the project objectives at the grantee institution.
The grant requirements are as follows:

- The project served the approved funded number of participants
- At least two-thirds of project participants served were low-income and first-generation students with disabilities, and/or students with disabilities who are also low-income

The SSS project at Wichita State is funded to serve 250 students each academic year. A total of 250 students were served in 2019-2020 (see table 1).

Table 1: number of participants funded to serve and actually served

Number of Participants Funded to Serve	Number of Participants Actually Served	Requirement Met?
250	250	Yes

Source: SSS Blumen Database 2019-2020

The process of selecting participants ensures that two-thirds of the students served are first generation and low-income. The remaining participants are either first generation, low-income, or students with disabilities. As Table 2 below shows, a total of 250 students were served in 2019-2020 grant year. Seventy percent of students served met the first generation and low-income criteria. In addition, 21.6% of the students served were first generation and 7.6% were low-income only. Less than 1% of the students served were disabled or disabled and low-income.

Table 2: 2019-2020 SSS Participant Distribution by Eligibility

Eligibility	Participants	Percentage
First Generation & Low-Income and/ or disabled including disabled who are also low income	175	70%
First Generation only	54	21.6%
Low-Income only	19	7.60%
Disabled only	1	<1%
Disabled & Low-Income	1	<1%
Total	**250**	**100%**

Source: SSS Blumen Database 2019-2020

As shown in table 3, a total of 175 participants were enrolled in the program as first generation and low-income, disabled, or disabled and low income. This constitutes 70% of

students served and exceeds' the two-third eligibility service requirement. A total of 73 students (29%) met the eligibility requirement of first generation or low income only criteria.

Table 3: Eligibility Requirement

# of First Generation & Low-Income, Disabled, Disabled & Low-Income Students	2/3 Eligibility Percent	1/3 Eligibility Percent	Requirement Met?
175	70	29	Yes

Source: SSS Blumen Database 2019-2020

It is important to note that the Office of Disability Services (ODS) and Disability Student Support Services (DSS) at Wichita State serve students with disabilities on the WSU campus. For more comprehensive services, SSS refers its students with disabilities to DSS or ODS.

OBJECTIVE A: PERSISTENCE OF SSS STUDENTS

Goal: The extent to which project participants persisted toward completion of the academic programs in which they were enrolled.

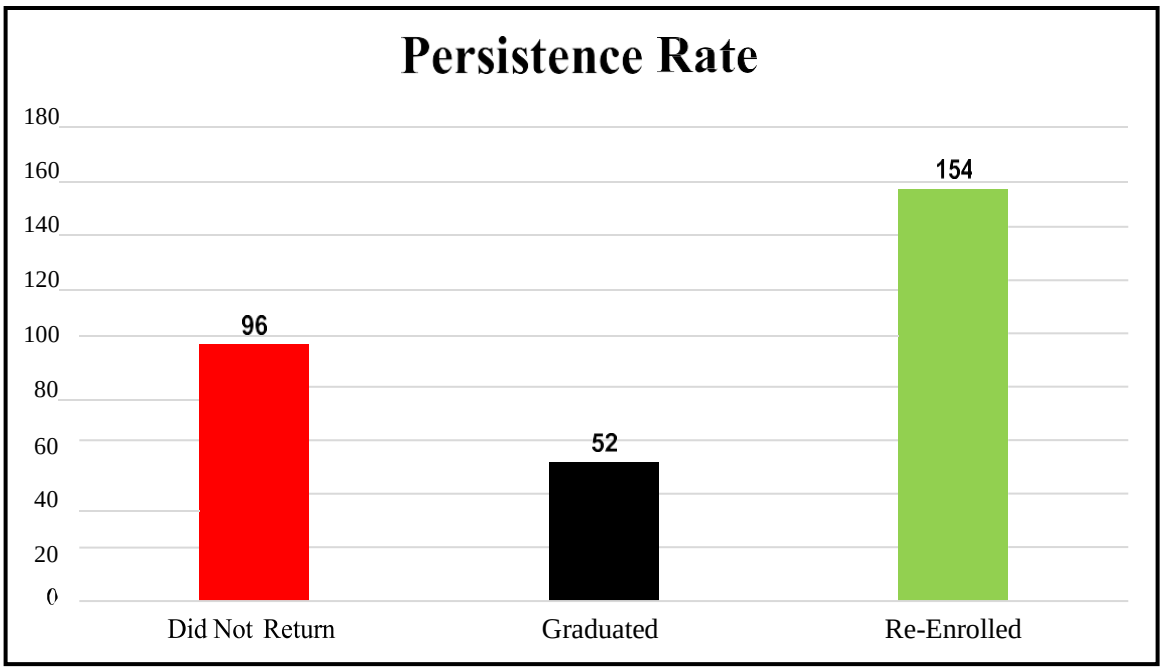

Objective A*: 74% of all participants served by the SSS Project will persist from one academic year to the beginning of the next academic year or will have earned a bachelor's degree at the grantee institution during the academic year.*

Table 4 and the chart below demonstrate persistence of SSS participants in 2019-2020. A total of 222 (89%) of program participants persisted from FL 2019 to FL 2020.

Table 4: Persistence of SSS Students at WSU

Grant Year	Number of Participants Served	Number of Participants who Graduated in 2019-2020	Number of Participants served in 2019-2020 who Re-enrolled in 2020-2021	Total Number of Participants who Persisted	Persistence Rate of FL 2019 to FL 2020
2019-2020	250	52	154	222	89%

Source: SSS Blumen Database 2019-2020

Source: SSS Blumen Database 2019-2020

OBJECTIVE B: GOOD ACADEMIC STANDING OF SSS

Goal: The extent to which project participants met academic performance levels required to stay in good academic standing at the grantee institution.

***Objective B**: 93% of all enrolled SSS participants being served will meet the performance level required to stay in good academic standing at the grantee institution.*

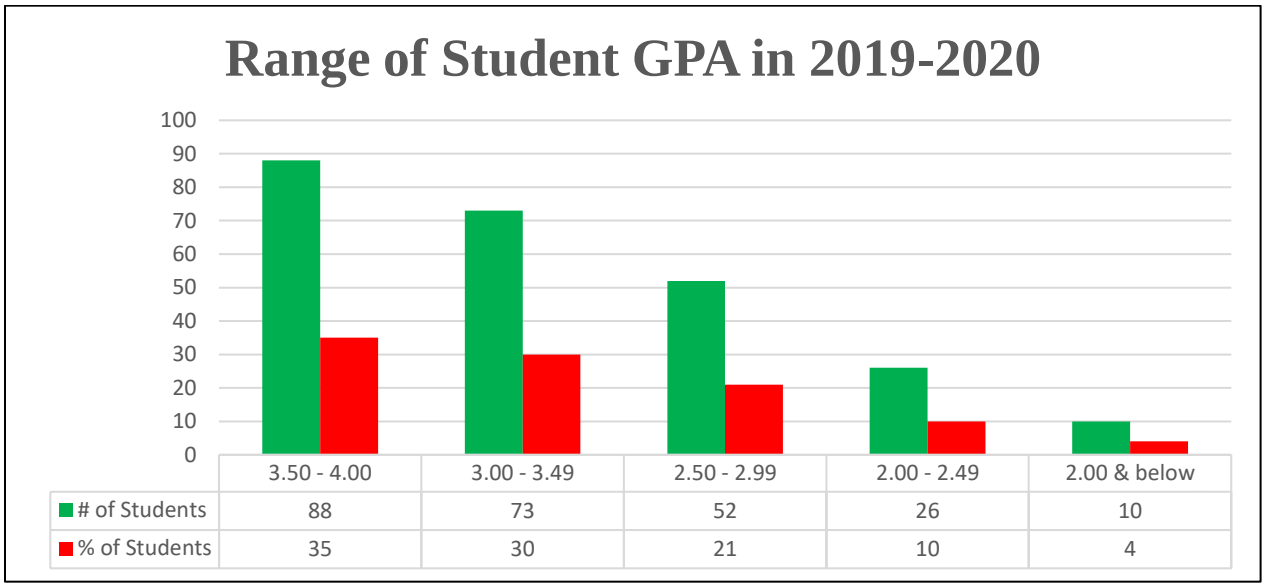

At the beginning of the 2019 academic year, GPAs of all current project participants were recorded to assess for academic standing. Updates on students' academic performance posted by the Registrar's Office in the fall, spring, and summer were reviewed to assess progress. The outcomes are shown in the tables and charts below.

Table 5 shows the percentages and GPA range of participants in good academic standing while table 6 shows the number of students served and in good academic standing. As shown in Table 6, 241 (96%) of students served were in good academic standing at the end of the 2019-2020 academic year.

Table 5: Good Academic Standing of SSS Students at WSU

GPA Range	Number of Students	Percentage of Students
3.50 - 4.00	**88**	**35%**
3.00 – 3.49	**73**	**30%**
2.50 – 2.99	**52**	**21%**
2.00 – 2.49	**26**	**10%**
2.00 & below	**10**	**4%**

Source: SSS Database and WSU Reporting Services 2019-2020

Source: SSS Blumen Database 2019-2020

Table 6: Number of Students in Good Academic Standing

Number of Participants Served	Number of Participants in Good Academic Standing	Good Academic Standing Rate
250	241	96%

Source: SSS Blumen Database 2019-2020

OBJECTIVE C: BACHELOR'S DEGREE ATTAINMENT

Goal: The extent to which project participants graduated.

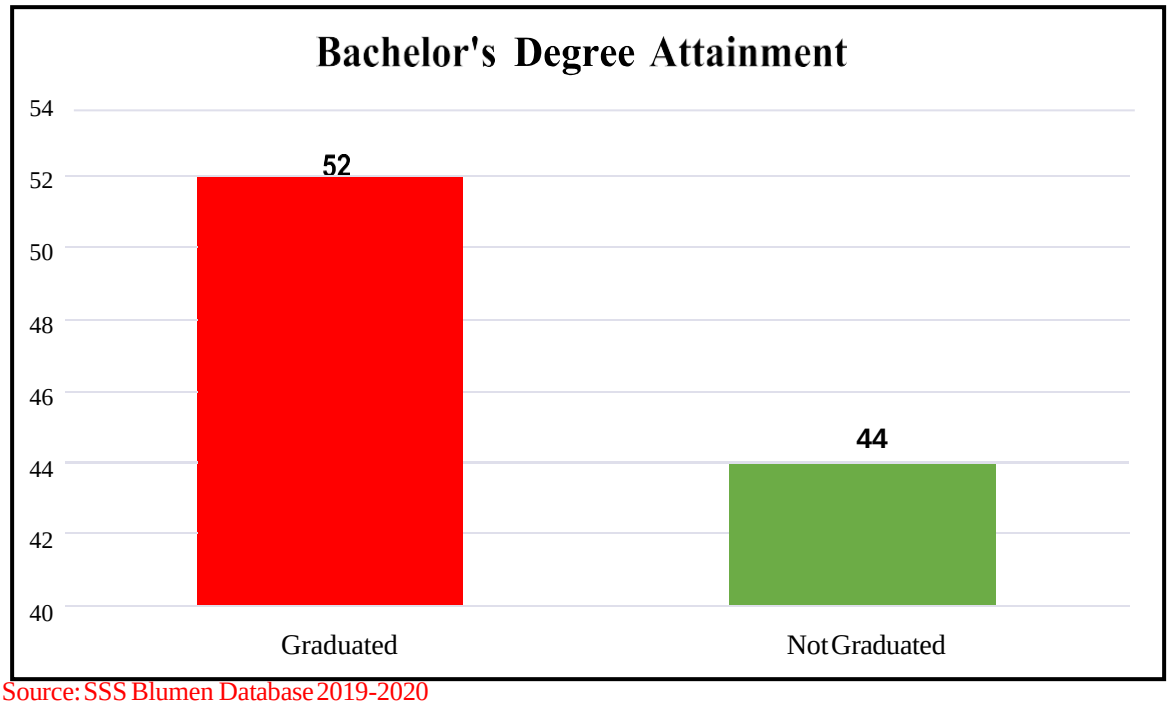

Objective C: *37% of new participants served each year will graduate from the grantee institution with a bachelor's degree or equivalent within six (6) years.*

As shown in Table 7, below 54% of the students served in 2014-2015 cohort graduated from Wichita State University with a bachelor's degree within 6 years. The U.S. Department of Education defines cohort as "a group of students who started in the same project year."

Table 7: Bachelor's Degree Attainment of SSS Students at WSU

Number of new Participants served in cohort year 2014-2015	Number of New Participants who Attained Bachelor's Degrees by SU 2018	Graduation Rate
96	52	54%

Source: SSS Blumen Database 2019-2020

Source: SSS Blumen Database 2019-2020

Qualitative and Quantitative Summary 2019-2020

Quantitative

Students Served:

- 250 students received project services
- 70% of SSS students were first- generation (Neither parent has a 4-year degree) and low-income (family taxable income did not exceed 150% of the poverty level) and/or disabled including disabled who are also limited-income
- 21.6% were first generation only
- 7.6% were limited-income only
- Less than 1% were students with disability only and/or disability and limited-income

Good Academic Standing:

- 96% of program participants remained in GoodAcademic Standing with a GPA > 2.00
- 86% completed the year with a GPA ≥ 2.5
- 65% completed the year with a GPA > 3.00

Persistence:

- 89% of project students enrolled in 2018-2019 re-enrolled at Wichita State and the SSS project for 2019-2020

Advising:

- A total of 1,290 advising contacts were provided toproject participants

Funding:

- SSS project awarded $3,750 in EOF and $9,000 in Endowed Scholarships to its participants
- SSS students retained at Wichita State with $3,308,126.28 in federal financial assistance

Qualitative

- **Oldest SSS project in the State of Kansas:** Assisting students since 1970
- **Advising:** SSS academic advisors provided academic, personal, financial aid,career and graduate school advising
- **Tutoring:** 10 tutors were available to tutor remotely during Fall 2019, Spring 2020, and Summer 2020
- **Study Skills:** an extensive list of videos and interactive worksheets were available in the SSS Technology Lab and an online class exclusively for SSS participants
- **Financial Literacy Skills:** online class through MyCollegeMoneyPlan.org and an online collection of assessments overclass material available to SSS participants
- **SSS Technology Learning Lab:** workspace and computers were available for students, resources for study skills/financial literacy were available, and tutors were on hand to assist (math/writing)
- **Textbook Library:** extensive collection of over 600 textbooks available for SSS participants to borrow
- **Through referrals to the Office of Special Programs (OSP):** laptops and iPads were available for SSS participants to check out
- **SSS Newsletter**: published 12 times a year
- **41st Annual Awards & Graduation Celebration held virtually in May 2020.**

Inputs

Section 4

IN THIS SECTION:

- Overview of Academic Services Offered
- Tutorial and Training Component
- Tracking and Evaluation Component
- Learning Skills and Technology Component
- Grants and Scholarships
- Marketing, Publicity and Community Relations
- Social Media Outreach

OVERVIEW OF ACADEMIC SERVICES OFFERED

SSS program offers its participants a variety of free services to help support their academic success. Each participant is assigned an academic advisor and offered personalized services to meet individual academic needs. Services offered to program participants include:

- ***Academic Advice & Assistance***
- ***Academic & Life Smart Skill Development***
- ***Textbook Library***
- ***FAFSA Application***
- ***Financial & Economic Literacy***
- ***Graduate School Enrollment Advice***
- ***Individualized Tutoring***
- ***Scholarships Exclusively for SSS students***
- ***SSS Technology Learning Lab***

In 2019-2020 academic year, the program served 250 participants with 89% persistence rate. Ninety six percent of the students remained in good academic standing and 54% graduated within 6 years. This was a result of coordinated inputs discussed in this section and listed below:

- Tutorial and Training Component
- Tracking and Evaluation Component
- Learning Skills and Technology Component
- Marketing, Publicity, and Community Relations
- Endowed Scholarships
- Social Media Outreach

TUTORIAL AND TRAINING COMPONENT

The Tutorial and Training Component (TTC) is critical in enhancing student learning and improving the academic success of SSS students at Wichita State University (WSU). The component is designed to directly impact students' overallacademic performance and course completion. Importantly, it helps students develop critical thinking skills and effective problem-solving strategies that are essential for academic success. The TTC is coordinated by the Assistant Director andAcademic Advisor, Mrs. Karen Wright. It is generally staffed with over fifteen peer-tutors, and a lead tutor.

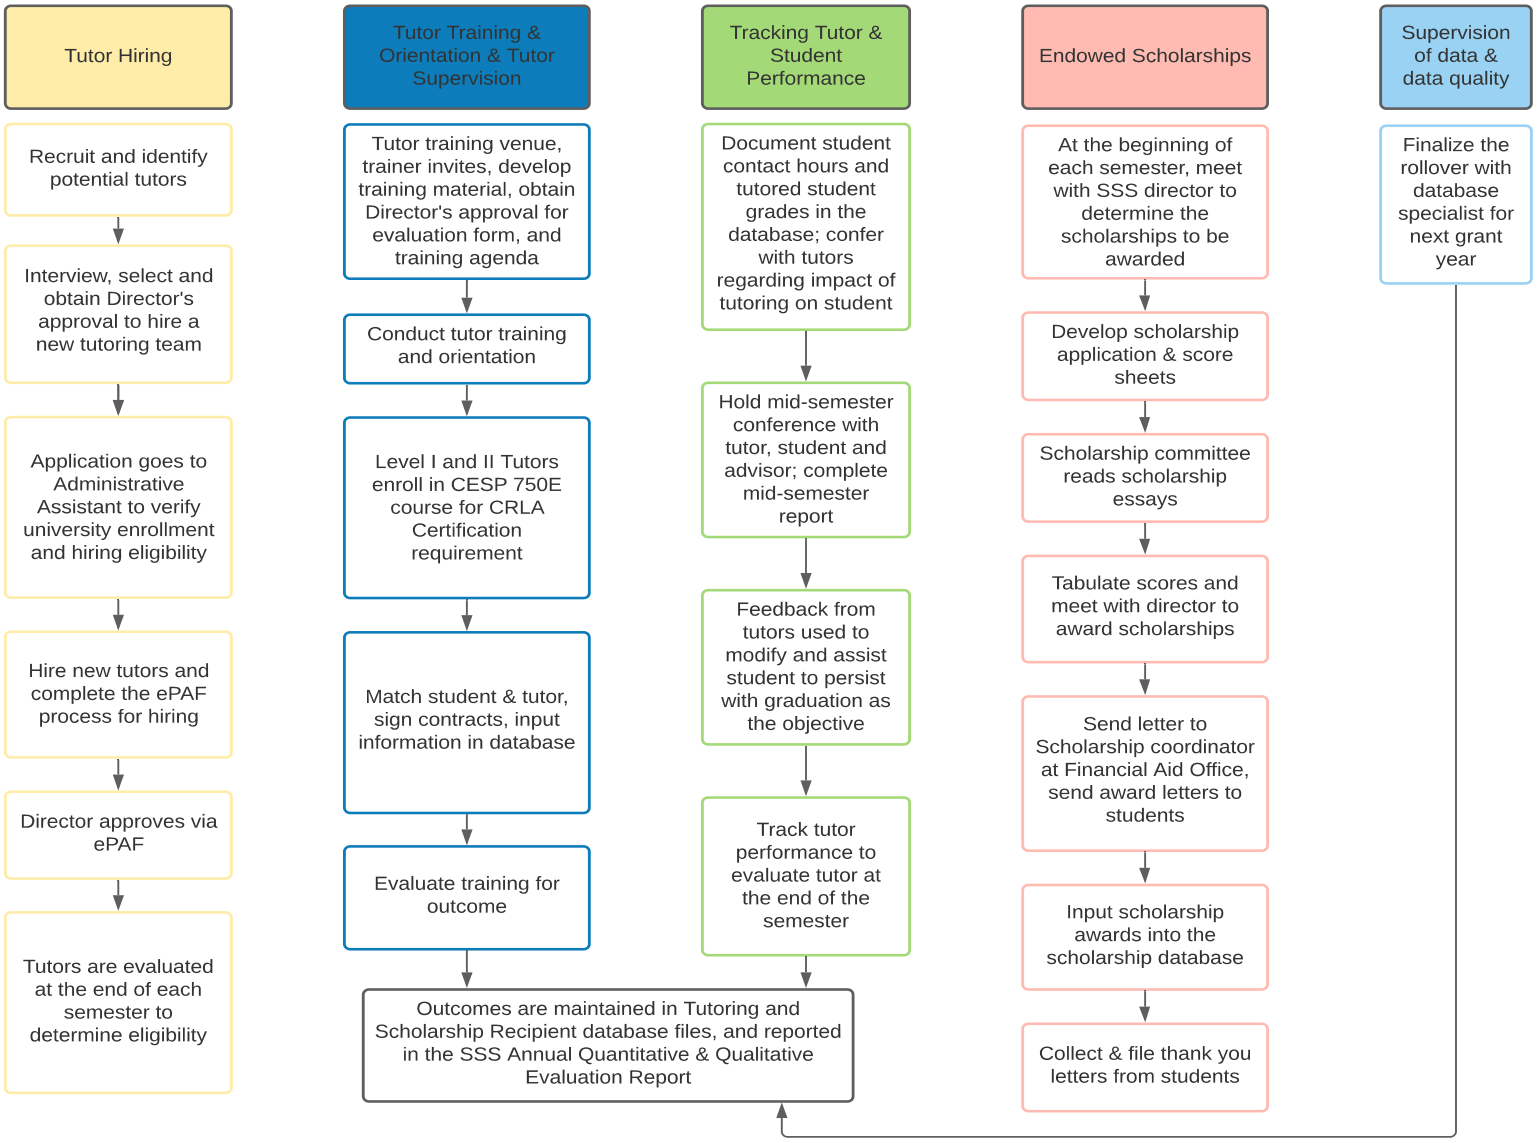

Peer tutors are critical in enhancing student learning and improving student academic success. Tutors are recruited and selected based on their academic achievements, class standing, and communication skills. They are recruited from a diverse pool of students across multiple disciplines at WSU. Importantly, prospective tutors are required to have a 3.0 GPA or better in the courses they plan to tutor program participants. The ability to recruit outstanding peer tutors from multiple disciplines across campus, gives TTC the capacity to offer tutoring in multiple courses including biology, chemistry, English, geology, history, mathematics, management, philosophy, physics, Spanish and statistics. Also, SSS tutors receive extensive training in tutoring best practices. New tutors complete a Level I course that is designed to help them acquire and develop the necessary skills to effectively assistprogram participants.

The TTC is committed to providing efficiency, effectiveness, and excellent service to program participants. The component's commitment to the program's core values is assessed through tutor evaluations completed by program participants. Evaluations provide feedback that is incorporated into tutor training sessions. Training methods are regularly revised to meet the changing needs of program participants. To maintain its high service standards, the TTC offers College Reading and Learning Association's (CRLA) certification to its tutors. CRLA certification is part of the International Tutor Training program which provides guidance on setting standards for improving tutor training skills.

As the TTC coordinator, Mrs. Wright's main responsibilities include supervising and facilitating quality tutoring services. Mrs. Wright has a wide range of experiences to go along with her experience in higher education. She is more than equipped to effectively work with TRIO SSS-participants.

*Ms. Charity Lowe operated in the role of assistant director during fall 2019 and early 2020

Tutorial and Training Component Process Chart

TRACKING AND EVALUATION COMPONENT

The Tracking and Evaluation Component (TEC) focuses onaccurate and continuous tracking of students' academic progress. The TEC coordinator maintains project database files that are usedto generate program activity reports. Specifically, TEC's main function is to collect, record, and evaluate data gathered from services provided to students. Additionally, the TEC is charged with assessing areas that need improvement and generating periodic reports to show the project's progress toward achieving grant funded objectives. The TEC is coordinated by our DatabaseSpecialist and Academic Advisor, Ms. Kamika Thomas-Hicks.

Specifically, Kamika tracks and monitors data for accuracy and relevance to project objectives. As the coordinator, Ms. Thomas-Hicks reviews project-developed assessment tools to ensure that they are designed to effectively capture relevant data. She gathers, reviews, and compiles reports each semester from campus departments including the registrar's office and office of financial aid. The data is evaluated and used to track students' academic performance and identify areas that need improvement. She ensures that data is appropriately filed and securely stored in a database. Ms. Thomas-Hicks is also responsible for providing data access to staff members. She prepares and facilitates monthly, annual, and special reports including an SSS Annual Performance Report (APR) to the
U.S. Department of Education.

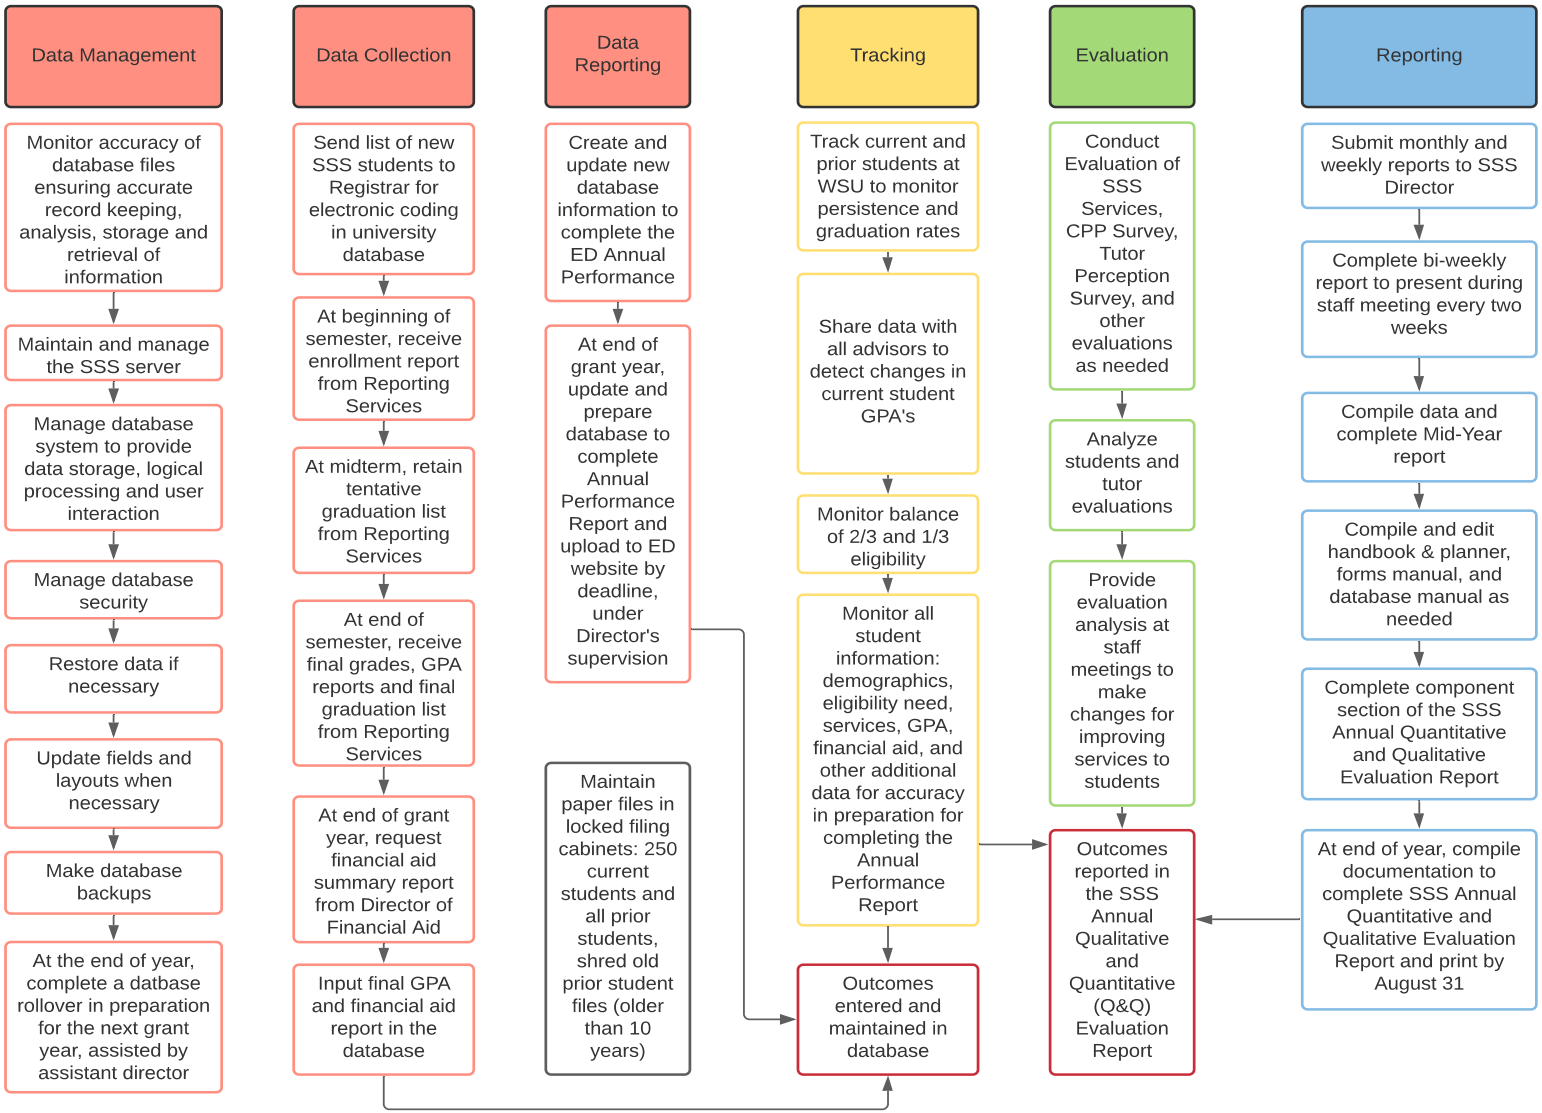

In addition, the TEC coordinator is charged with preparing an annual Quantitative andQualitative (Q&Q) report that is distributed to stakeholders. The report summarizes the program's activities and performance. Importantly, the Q&Q report allows the program to share its service outcomes with all stakeholders including WSU President, vice presidents, scholarship donors, and the Wichita community.

In sum, the TEC is critical to ensure the program services and improvement efforts remain committed to the core values of providing efficient, effective, and excellent services to participants. Data is reviewed and evaluated regularly to monitor areas that need improvement and shared with relevant components. For instance, data that is compiled and evaluated from tutor surveys is shared with the TTC coordinator to make tutoring improvement. Similarly, information that is gathered from reports about students' academic performance is used by advisors to plan effective interventions with at-risk students. The TEC helps track and evaluate the program's success in providing efficient, effective, and excellent services to program participants.

Kamika Thomas-Hicks joined the project as SSS Database Specialist in Spring 2020. She holds a Bachelors' degree in Mathematics. She has literally grown up in TRIO from middle school to high school. She brings a wealth of experience acquired over many years of working with disadvantaged population in the Wichita area.

*Ms. Pooja Sharma operated in the role of database specialist during fall 2019 and early 2020.

Tracking and Evaluation Component Process Chart

LEARNING SKILLS AND TECHNOLOGY COMPONENT

The Learning Skills and Technology Component (LSTC) providesstudents with assistance in academic and life smart skills. Importantly, it facilitates participants access to computer technology and textbooks.

The LSTC is coordinated by an Academic Advisor, Nelson Ross, and staffed with Lab Assistants (LA). As the coordinator, Mr. Ross oversees a Technology Learning Lab where students get access to computers, printing, andwalk in tutoring services. Specifically, Mr. Ross supervises Lab Assistants and is responsible for coordinating skill building programming for students.

In addition, the LSTC coordinator works with the Office for Student Money Management (OSMM) at Wichita State University (WSU) to provide our participants with financial literacy skills. Specifically, the OSMM providesour program participants with access to MyCollegeMoneyPlan.org website.

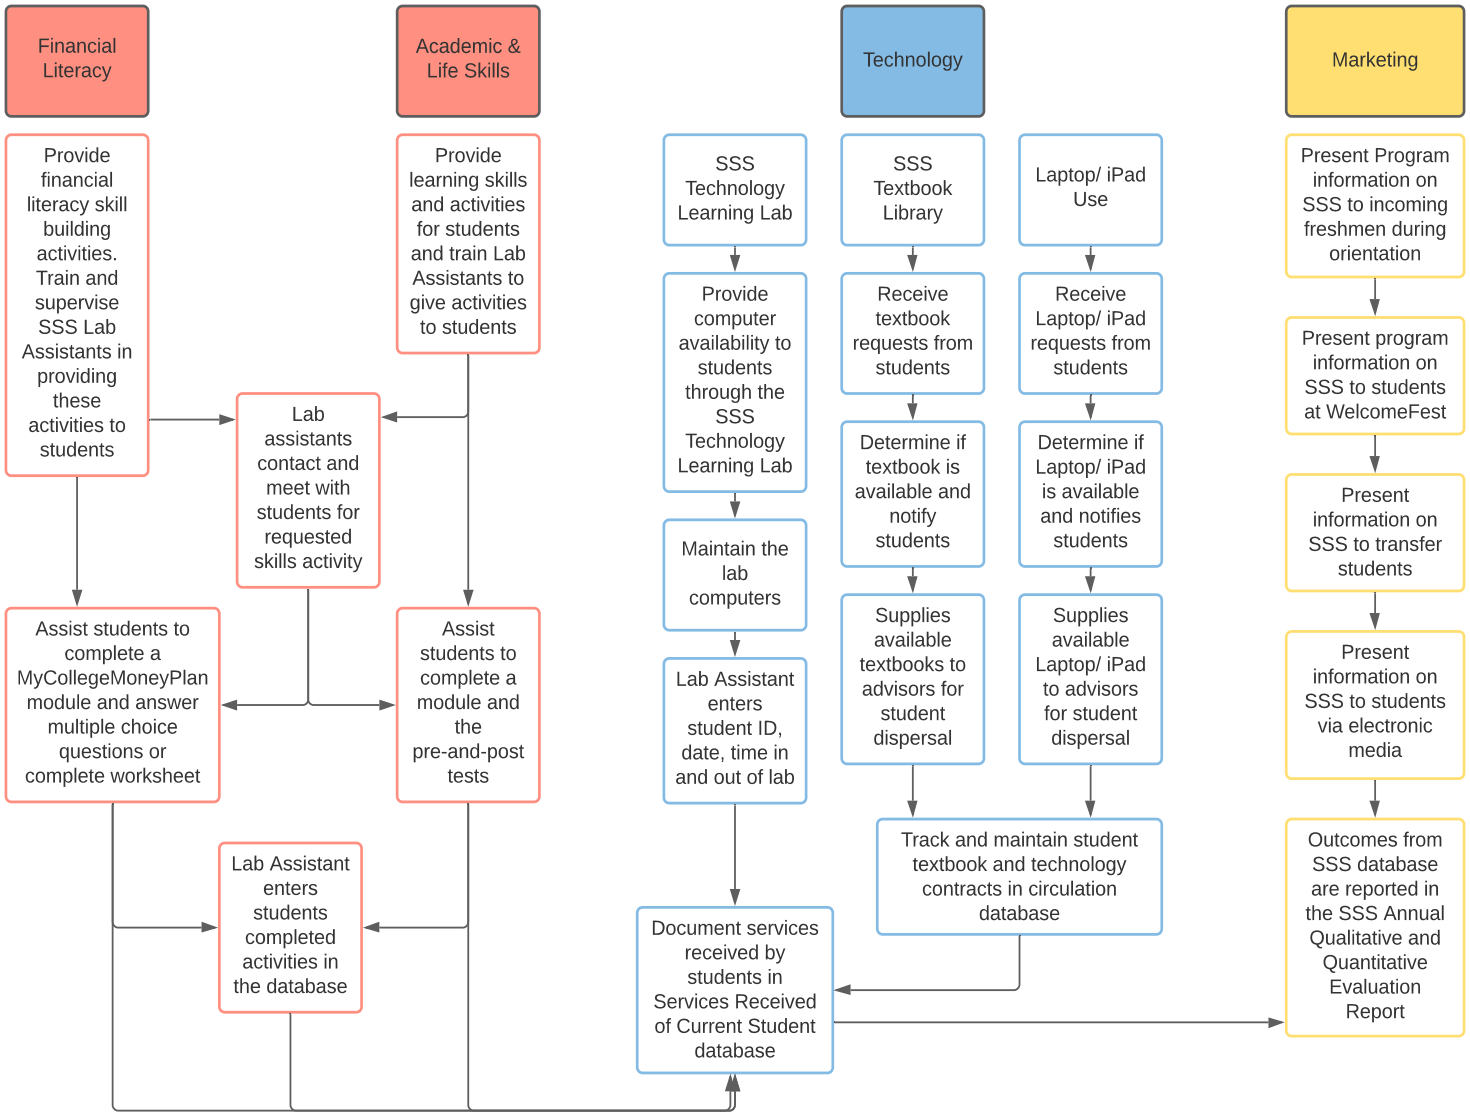

The website contains ten modules that allows our students to explore and learnabout money matters. Topics covered in the modules include FAFSA completion, loan repayment, and credit reports. The modules are convenient and readily accessible to ourparticipants online. Mr. Ross monitors students online activities including signing up and completion of modules. The money management online activity is designed to meet the U.S. Department of Education requirement to provide program participants with financial literacy skills.

The LTSC coordinator also provides program participants with study skills training through online academic and life smart skill-building modules. Topics covered by these modules include time management, note-taking, how to read textbooks, test-taking strategies, and listening skills. In addition, an Academic Skills Needs Assessment is completed by each participant as part of the SSS program application. More information about individual student needs is gathered during the course of advising meetings. Information gathered by advisors is used to guide programming of the technology lab services.

SSS Technology Learning Lab Assistants are charged with the task of helping students with course assignments. The assistance provided includes helping students with solving math problems, writing assignments,and course syllabus expectations. This component also offers a library service that includes loaning textbooks acquired through donations from campus departments and students at Wichita State, as well as a grant from the Student Government Association.

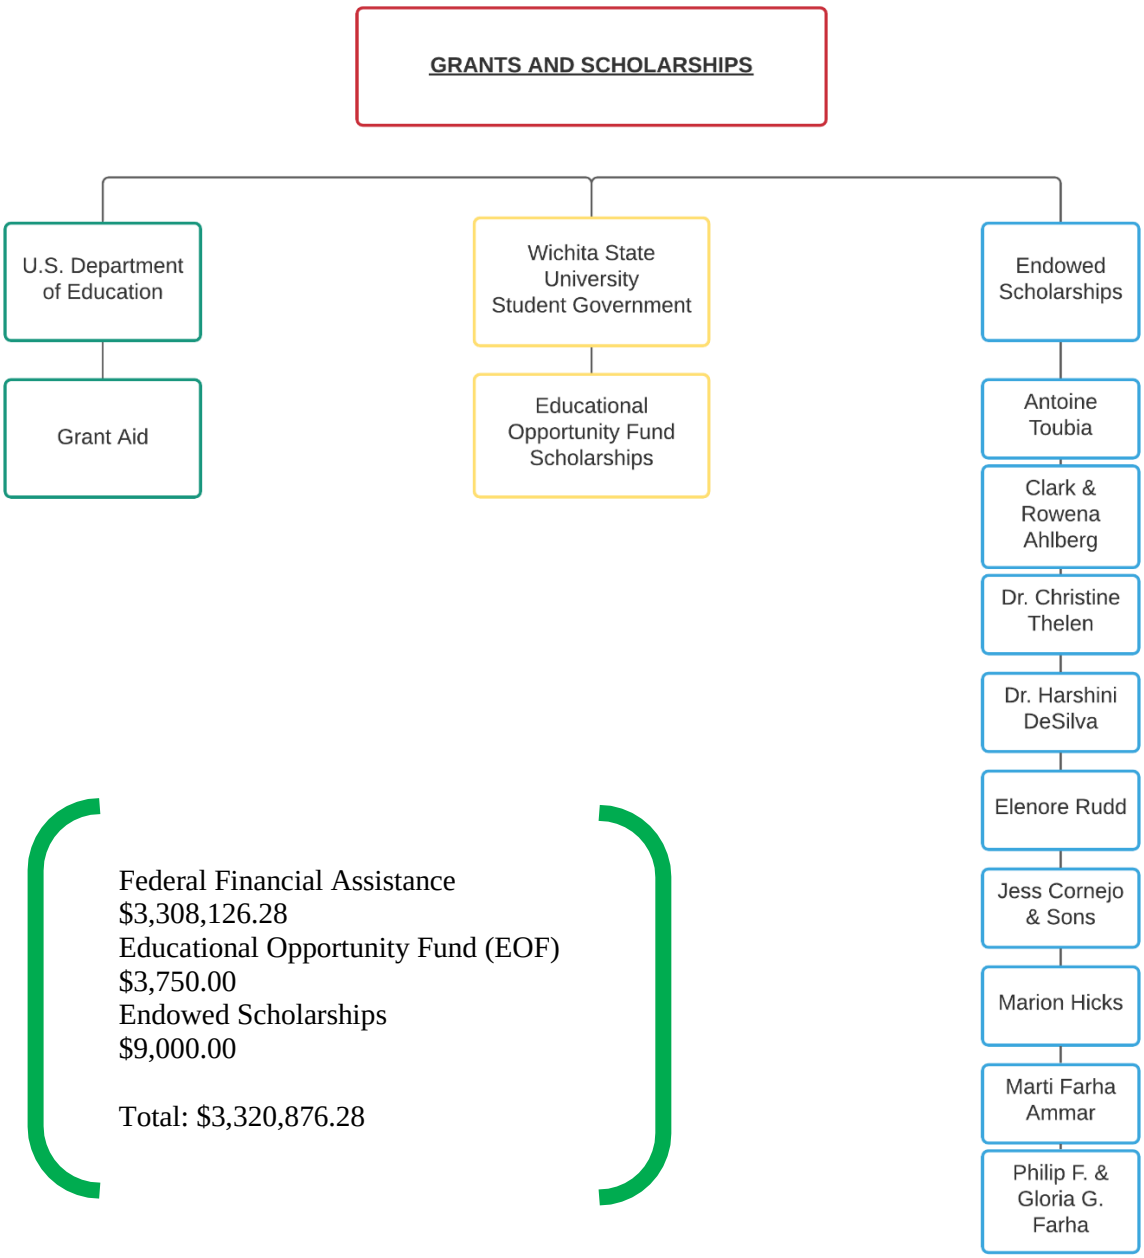

The Academic Advisor and LSTC coordinator, Nelson Ross, joined the team of SSS professional staffin September 2017 and remained until June 2021. Born in California, Mr. Ross has traveled and lived in Kansas, New York, Los Angeles, London, and for a brief period in Paris. He values the challenge of new and enlightening experiences and describes them as the most important elements of life. Mr. Ross holds a bachelor's degree in political science from the University of Kansas. He is currently pursuing a Masters' degree in public administration at WSU. Mr. Ross has experience teaching disadvantaged students. More about LSTC is shown in the process chart on the next page.

Learning Skills and Technology Component Process Chart

GRANTS AND SCHOLARSHIPS

SSS offers Grant Aid, Educational Opportunity Fund (EOF), and Endowed Scholarships to support program participants. Grant aid is supported by the U.S. Department of Education and EOF is provided through the Student Government Association (SGA) at Wichita State University. The program receives endowed scholarships to support program participants from generous community donors. Scholarships provided by community donors are awarded twice a year to active program participants. Students must apply and be in good academic standing to be considered for a scholarship. Scholarships awarded are shown in the chart below.

Federal Financial Assistance
$3,308,126.28
Educational Opportunity Fund (EOF)
$3,750.00
Endowed Scholarships
$9,000.00

Total: $3,320,876.28

COMMUNICATIONS AND MARKETING

Although Mrs. Chelsea Martinez worked in the role of Senior Administrative Assistant for her first year in SSS (2019-2020), her skills were immediately recognized in the areas of Communications, Marketing and Academic Advising. She was promoted during spring 2021 to Communications, Marketing, and Academic Advising Specialist.

Even though eligible participants are the main target of the program's marketing efforts, our publicity efforts are designed to build strong relations with Wichita State faculty, staff, students, and community. The program's marketing message focuses on the free services provided to help students' transition, persist, and graduate successfully from WSU. Marketing and publicity information is disseminated through print and digital media. In addition, program information is presented at campus events and meetings. Social media is used to publicize program services to students and the community.

The marketing and publicity of SSS services is a collaborative effort. We work closely with multiple departments on campus to inform the campus community about program services and student eligibility requirements. SSS professional staff share information about services and benefits with faculty, staff, and students at a variety of campus events throughout the year. These events include general faculty and staff meetings, faculty orientation, freshmen orientation, re-entry orientation, student organization meetings, TRIO events, WelcomeFest, group campus visits, and financial aid events. Information is also presented in classroom settings. SSS staff work with faculty to schedule classroom presentations for eligible participants. The partnership and information sharing help publicize services offered by the program to eligible participants and the campus community. Importantly, it helps facilitate student referrals.

The SSS Annual Awards and Recognition Ceremony is the culminating publicity event that helps market the program by showcasing student success. The ceremony is attended by SSS students, tutors, faculty, staff, scholarship donors, community leaders and staff members of the U.S. Congress and Senators from Kansas. The event's schedule includes student speakers, program alumni, and graduating seniors. At the event, program participants share with faculty, staff, students, and members of the community stories about their challenge, and triumph of their academic journey. More importantly, they provide a testament to the role played by TRIO Student Support Services in their success. The program's strong community relations are celebrated at the event when donors and student recipients of scholarships are recognized.

SOCIAL MEDIA OUTREACH

The Student Support Services website provides a centralized location for students (prospective, current, and alumni) to access online information about program services, activities, and events. Students can access information, complete the program application, update their contact information, request for a tutor, technology, or textbook services. Also, students can access online modules for Financial & Economic Literacy, Academic Success Skill, and Life skill development, and scholarship resources. The SSS website and Facebook page provide students with additional easy and quick access to program activity updates, news and event notifications. The Student Support Services website can be accessed at https://www.wichita.edu/services/student_support/

OVERVIEW OF DATA TRACKING AND EVALUATION OF OUTPUTS

Tracking and Evaluation of Student Progress

The Tracking and Evaluation Component (TEC) collects and records data gathered from students receiving program services. Specifically, TEC evaluates the data and generates reports that are used to assess the project's progress toward grant objectives and identify service areas that need improvement.

A variety of project-developed instruments are used to gather information directly from service recipients. This includes services provided by the Tutorial and Training Component (TTC), and the Learning Skills and Technology Component (LSTC). Data reports from the Registrar and Office of Financial Aid are also assessed to monitor students' educational progress. This section present data analyzed from services provided in 2019-2020 grant year. ***Highlights of the project's 2019-2020 success can also be found in the Quantitative and Qualitative report on page 20.***

Summary of Grant Objectives and Outcomes

***Objective A**: **74%** of all participants served by the SSS Project will persist from one academic year to the beginning of the next academic year or will have earned a bachelor's degree at the grantee institution during the academic year.*

Outcome: 89% of all participants returned to Wichita State for the 2019-20 academic year or graduated with a bachelor's degree.

***Objective B**: **93%** of all enrolled SSS participants being served will meet the performance level required to stay in good academic standing at the grantee institution.*

Outcome: 96% of SSS participants met the performance level required to stay in good academic standing at Wichita State.

***Objective C**: **37%** of new participants served each year will graduate from the grantee institutionwith a bachelor's degree or equivalent within six (6) years.*

Outcome: 54% of new SSS participants in 2014-15 graduated with a bachelor's degree from Wichita State.

Details on the above objectives can be found on pages 14-20.

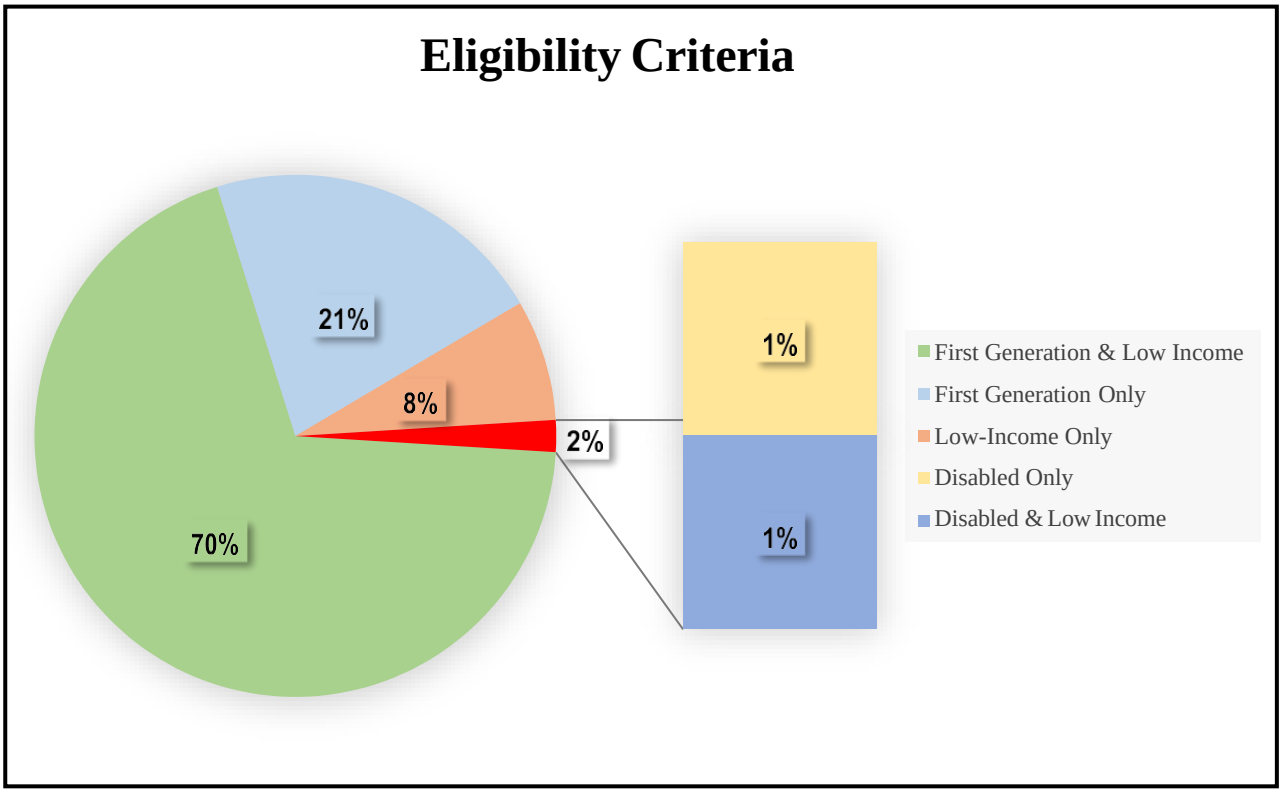

DEMOGRAPHIC INFORMATION OF PROJECT PARTICIPANTS

In this section tables and charts are presented to provide information about students served by the SSS Project in 2019-2020 academic year. The tables and charts show a breakdown of the student population by eligibility, ethnicity, and gender.

Eligibility Criteria

Eligibility	Participants	Percentage
First Generation & Low-Income and/ or disabled including disabled who are also low income	175	70%
First Generation only	54	21.6%
Low-Income only	19	7.60%
Disabled only	1	<1%
Disabled & Low-Income	1	<1%
Total	**250**	**100%**

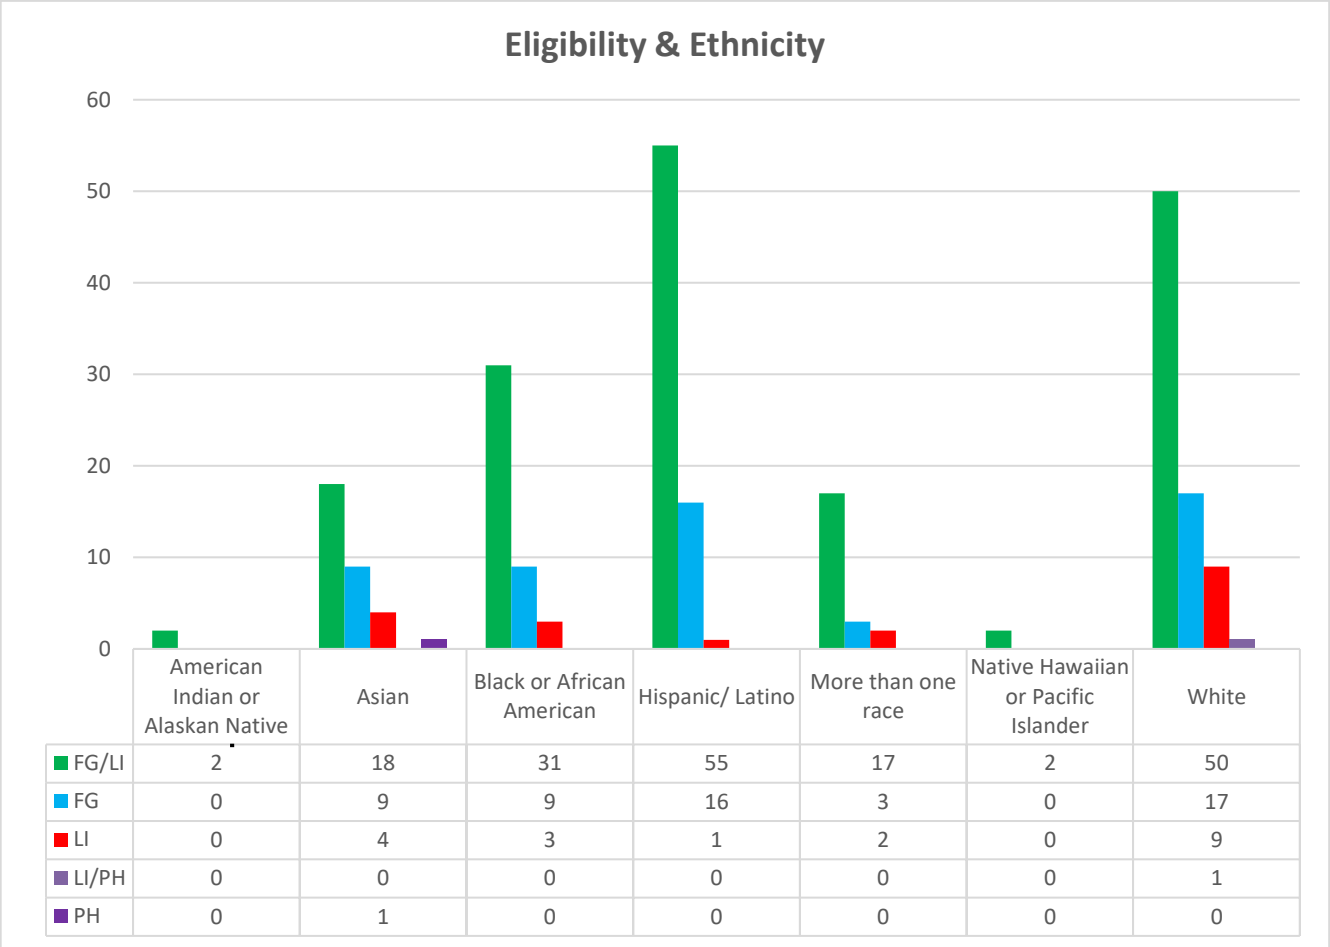

Source: SSS Blumen Database 2019-2020

Source: SSS Blumen Database 2019-2020

Eligibility & Ethnicity

Based on eligibility, most students were identified as first generation (FG) and low income (LI) across all ethnic groups. However, as shown in the chart below FG/LI students identified as American Indian or Alaskan Native (2), Asian (18), Black or African-American (31), Hispanics (55), more than one race (17), Native Hawaiian or Pacific Islander (2), and White (50).

	American Indian or Alaskan Native	Asian	Black or African American	Hispanic/ Latino	More than one race	Native Hawaiian or Pacific Islander	White
FG/LI	2	18	31	55	17	2	50
FG	0	9	9	16	3	0	17
LI	0	4	3	1	2	0	9
LI/PH	0	0	0	0	0	0	1
PH	0	1	0	0	0	0	0

Source: SSS Blumen Database 2019-2020

Eligibility & Gender

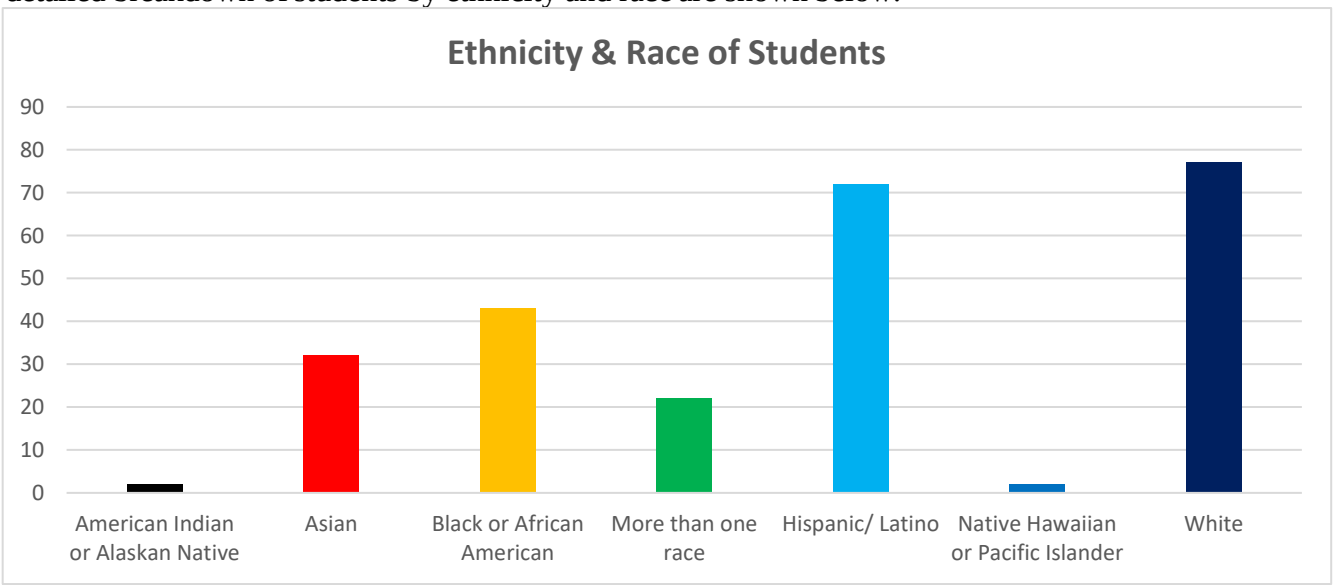

As shown in the chart *(next page)*, the largest number of participants served by gender in 2019-20 were females (120) from first generation/low income backgrounds

Source: SSS Blumen Database 2019-2020

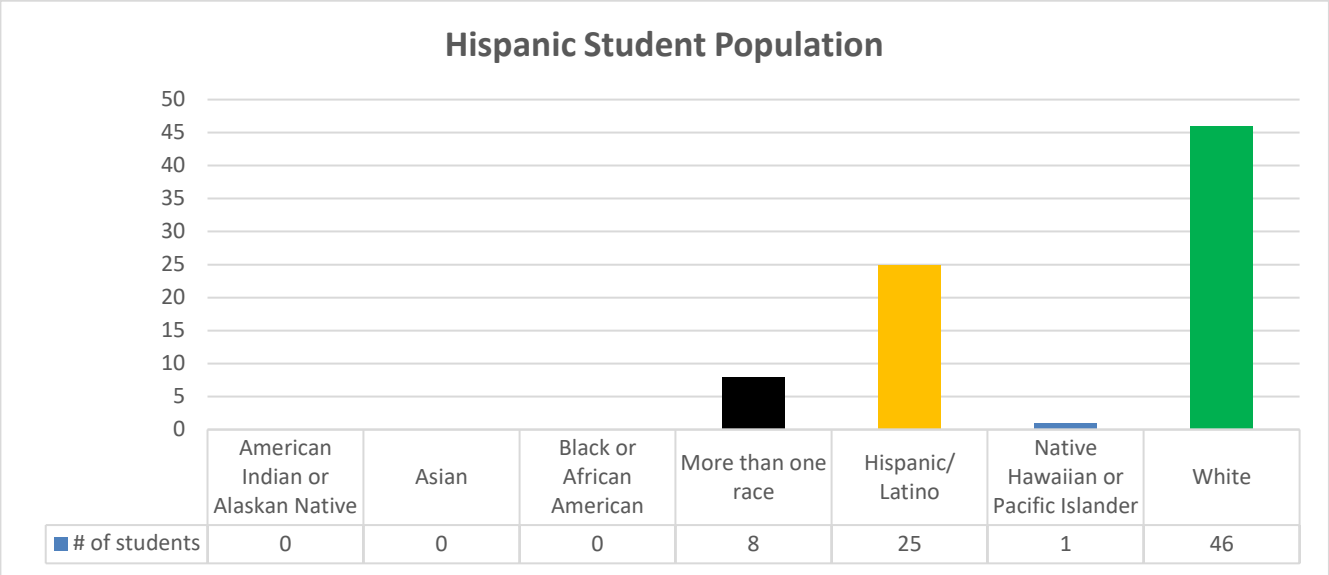

Ethnicity and Race

The chart below shows students served in 2019-2020 by ethnicity and race. Twenty nine percent (72) of the participants identified as Hispanic/Latino, while 71% (178) identified as Non-Hispanic-Latino. A detailed breakdown of students by ethnicity and race are shown below.

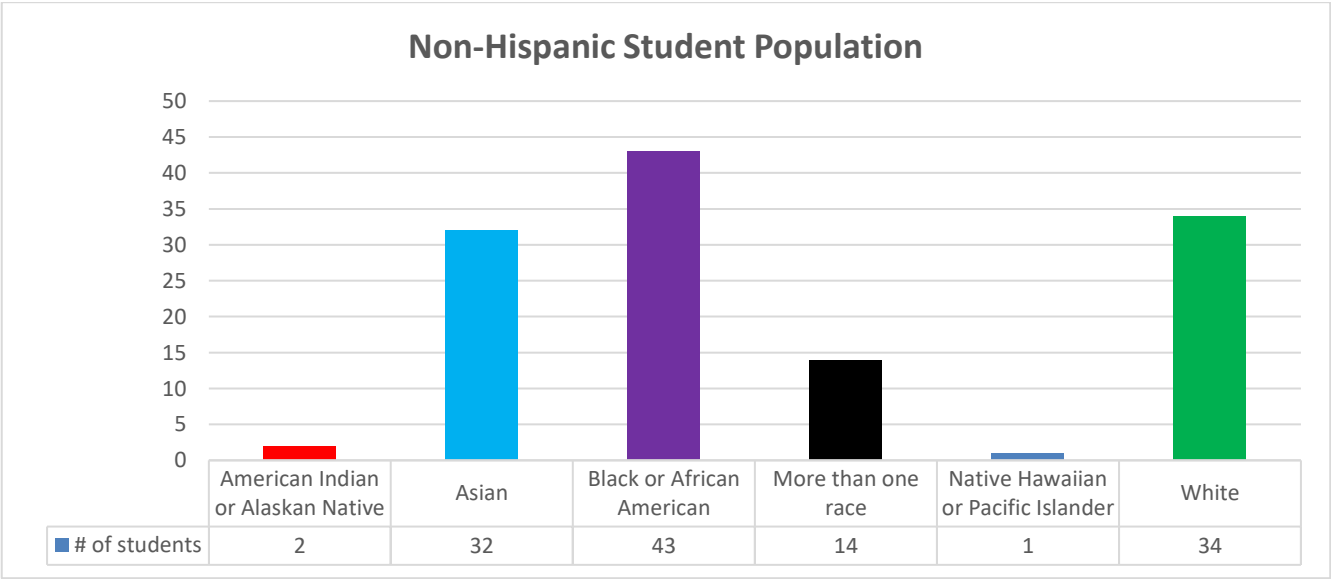

Source: SSS Blumen Database 2019-2020

The chart below shows a breakdown of the Hispanics student population; 8 identified as multiracial, 1 as Native Hawaiian or Pacific Islander, 46 as White, and 25 identified as Hispanic Only.

Source: SSS Blumen Database 2019-2020

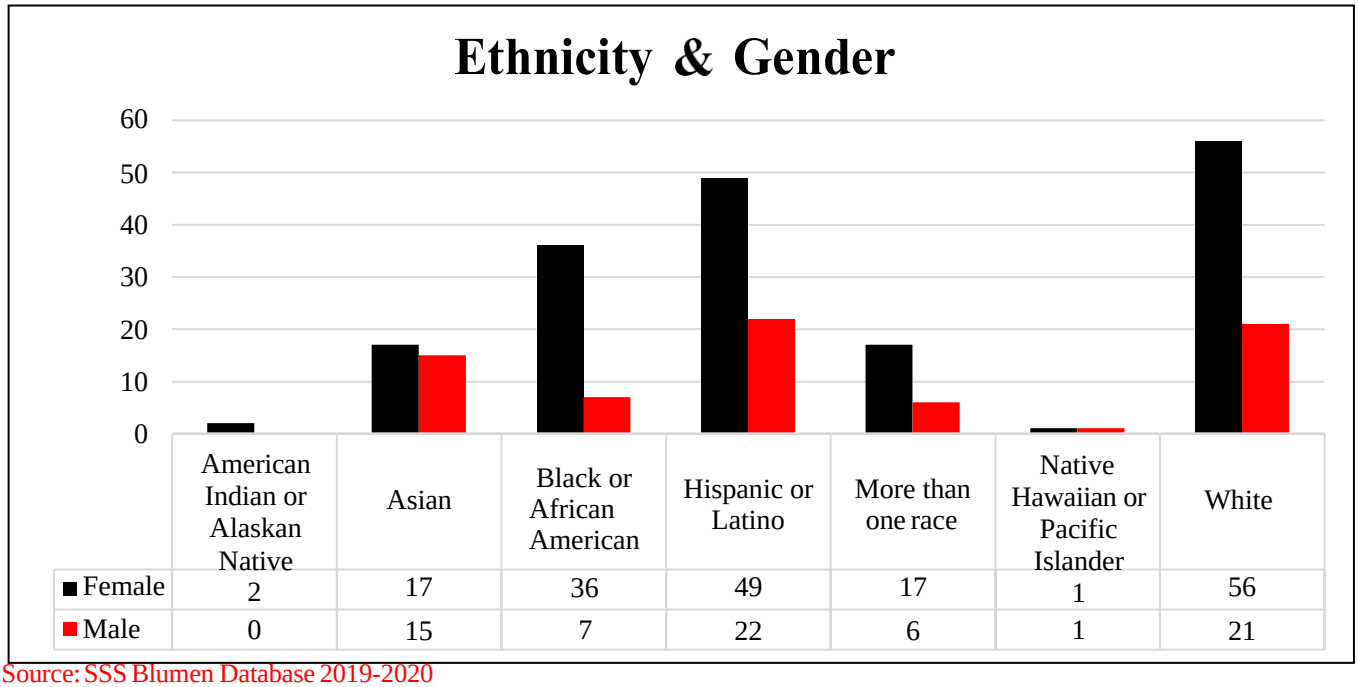

Similarly, the chart below shows a breakdown of the Non-Hispanic student population; 2 identified as American Indian or Alaskan Native, 32 identified as Asian, 43 as Black or AfricanAmerican, 1 as Native Hawaiian or Pacific Islander, and 34 as White. Fourteen students identified as multiracial.

Source: SSS Blumen Database 2019-2020

Ethnicity & Gender

As shown in the chart below more female students were served compared to male students. In 2019-20 academic year, the number of female students served by race were American Indian or Alaskan Native (2), Asian (17), Black or African-American (36), Hispanic (49), more than one race (17), Native Hawaiian or Pacific Islander (1), and White (56). Similarly, the number of male students served by race were Asian (15), Black or African-American (7), Hispanic (22), more than one race (6), Native Hawaiian or Pacific Islander (1), and White (21).

	American Indian or Alaskan Native	Asian	Black or African American	Hispanic or Latino	More than one race	Native Hawaiian or Pacific Islander	White
Female	2	17	36	49	17	1	56
Male	0	15	7	22	6	1	21

Source: SSS Blumen Database 2019-2020

Students by Gender

The chart below shows participants served in 2019-2020 by gender. As shown in the chart, 29% of participants served were male, while 71% were female.

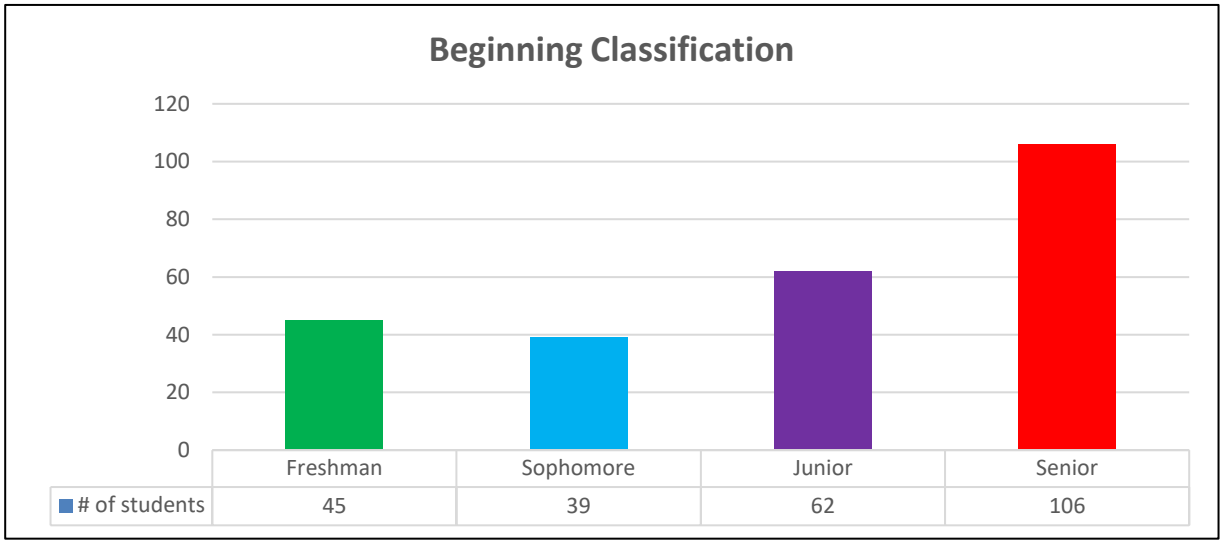

Source: SSS Blumen Database 2019-2020

STUDENT CLASSIFICATION

Beginning Classification

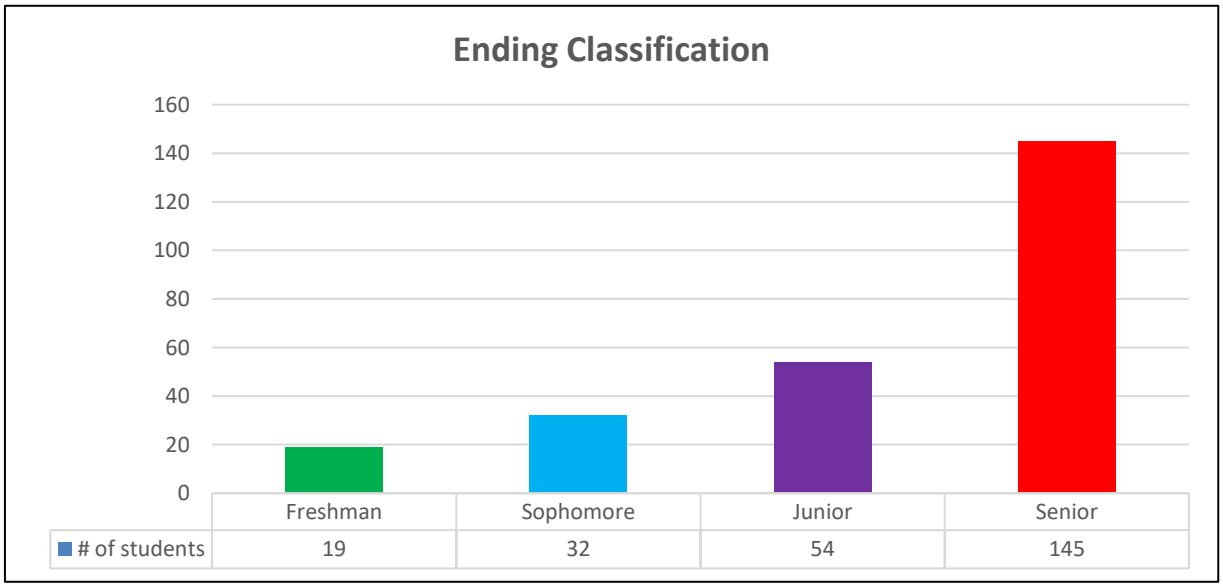

The chart below shows students identified by classification at the beginning of the academic year. They included 45 Freshmen, 39 Sophomores, 62 Juniors, and 106 Seniors.

Source: SSS Blumen Database 2019-2020

Ending Classification

At the end of the academic year, classification data showed 19 Freshmen, 32 Sophomores, 54 Juniors, 145 Seniors in the program. These numbers reflect the progression of program participants during the academic year. The data also shows a high retention rate among graduating students.

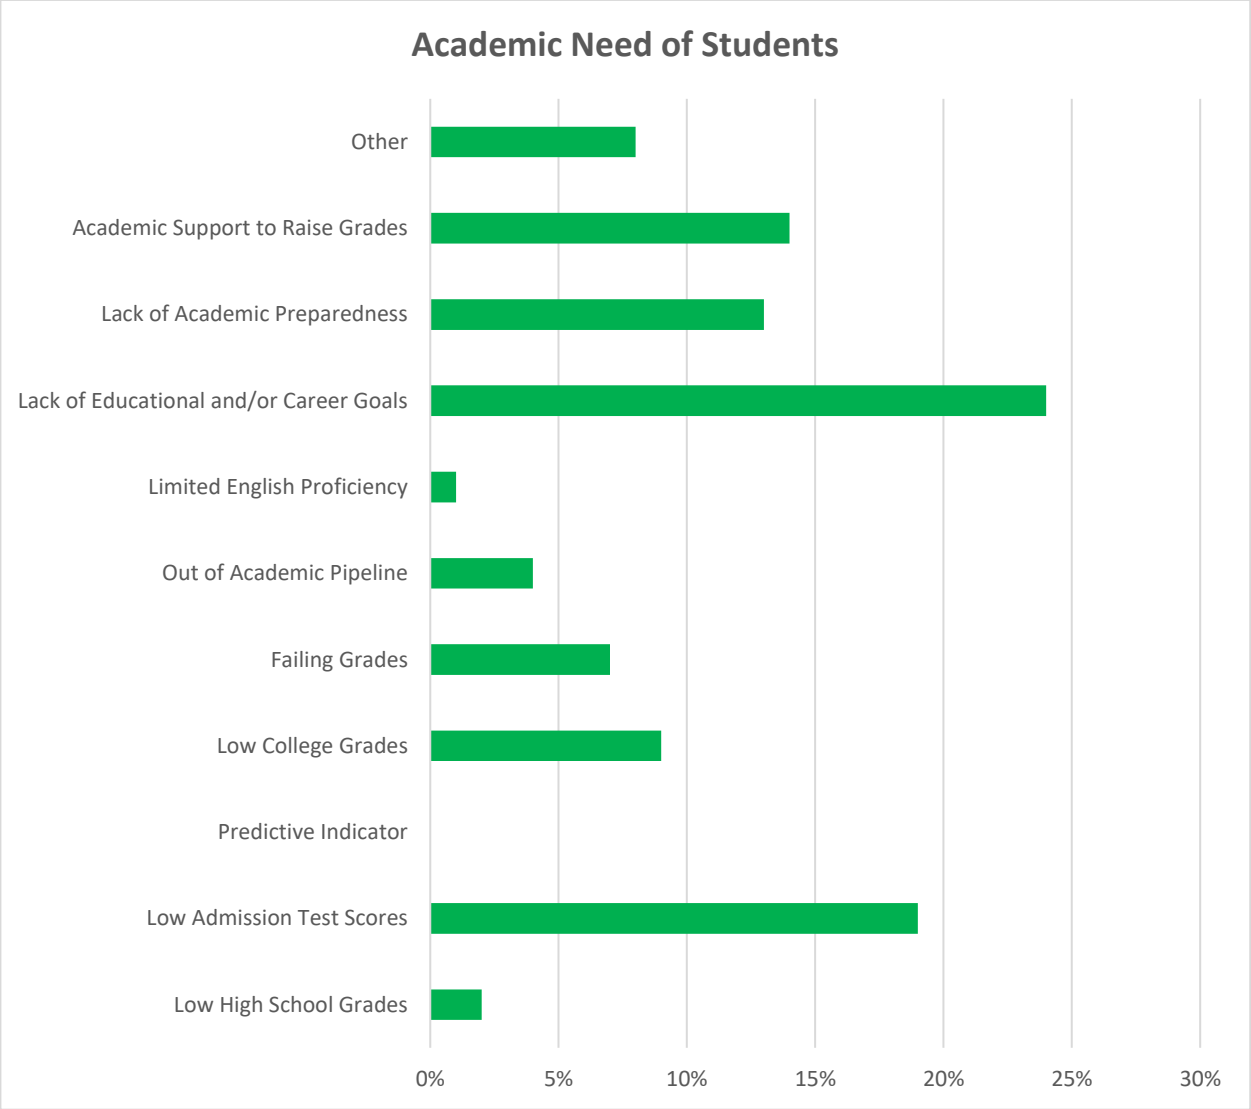

Source: SSS Blumen Database 2019-2020

ACADEMIC NEEDS AND ADVISEMENT

Student Academic Needs

As shown in the chart below, the academic need reported by students reflected low academic test scores (19%) and assistance for academic support to raise grades (14%). Although 8% students' academic needs were unspecified and categorized as other, 24% of reported needs reflected the lack of educational and/or career goals. Similarly, 9% students reported needs related to low college grades and 13% lack of academic preparedness. About <1% was based on predictive indicators. *

Source: SSS Blumen Database 2019-2020

*Predictive Indicator is a composite variable for estimating the potential success of a student in college using a variety of factors that may include indicators such as high school GPA, SAT or ACT test scores, college preparedness, etc.

Advisement Summary

The Table below shows SSS participant advisement in 2019-20. Data gathered on participants served showed a total of 1,290 student contacts and 353.2 contact hours.

Grand Summary of Service Contact & Contact Time Grand Summary Total Number of Contacts (all students) 1,290 Grand Summary Total Contact Time (all students) 353.2**	
Service Grand Summary **(Students may receive more than one service each contact)**	
Academic Tutoring	**96**
Advice and assistance in postsecondary course selection	**255**
Education/counseling to improve financial aid economic literacy	**63**
Information in applying for Federal Student Aid	**185**
Assistance in completing and applying in Federal Student Aid	**28**
Assistance in applying for admission to Graduate School and obtaining Federal Student Aid	**250**

The Student Contact Database tracks the advisor-student contacts. This Database is used to fill out the information on this page. The database is set up specifically to track the name, type of contact, length of contact and services received. Additionally, this information is collected to complete the Annual Performance Report.

****Total Contact Time = hours and (tenth of hours)**

Scholarships Awards

As shown in the Table below, a total of 22 scholarships were awarded to program participants during the fall, spring, and summer semesters. Sixteen endowed scholarships and six Educational Opportunity Fund (EOF) scholarships were awarded to students in good academic standing. The EOF is funded by the Student Government Association. Provided in the chart are details of Scholarships awarded to students in 2019-20.

Scholarships	Fall	Spring
Clark & Rowena Alhberg	6	
EOF	6	
Dr. Christine Thelen	1	
Phillip & Gloria Farha	3	
Dr. Harshini de Silva		1
Antoine Toubia		1
Marti-Farha Ammar		1
Marion Hicks		1
Elenore Rudd	2	

SUPPORT SERVICE ACTIVITIES AND OUTPUTS

Tutoring Services

During the 2019-2020 academic year, fifty-five students requested tutoring services. A total of forty (72%) student received individualized tutoring services. A total of 162 credit hours were supported through individualized tutoring for the 2019-2020 academic year. This number includes individualized tutoring services provided in Fall 2019 and Spring 2020. Specifically, during fall 2019, thirty-nine students requested tutoring services, out of which twenty-six received individualized tutoring in forty catalog courses. In spring 2020, sixteen students requested tutoring services, out of which 14 received individualized tutoring in 21 catalog courses.

In Fall 2019, fourteen tutors specializing in STEM (Natural Sciences, Technology, Engineering and Math) courses and 4 tutors specializing in LAS (Liberal Arts and Sciences) courses were available for individualized tutoring. In Spring 2020, twelve tutors specializing in STEM (Natural Sciences, Technology, Engineering and Math) courses and 5 tutors specializing in LAS (Liberal Arts and Sciences) courses were available for individualized tutoring.

In Fall 2019, the Student Lounge was used for a total of 103 hours. Spring 2020, 41 hours. Summer 2020, 1.5 hours. Academic year total usage = 146 hours

Learning Skills and Technology

An extensive list of videos and worksheets were available in the SSS Technology Lab and an online class exclusively for SSS participants was available.

Technology Learning Lab

With the exception of when the WSU campus was closed, due to the Corona Virus, the SSS technology lab hasworkspace and computers available for SSS participants to use. In the technology lab, there are resources for study skills/financial literacy. Tutors were generally on hand to assist (math/writing).

Through referrals to the Office of Special Programs (OSP)

Laptops and iPads were available for SSS participants to checkout.

Financial and Economic Literacy Activities

An SSS workshop was facilitated by the Office of Financial Aid on Financial and Economic Literacy as well as research for scholarships.

SSS Textbook Library

- SSS has an extensive collection of more than 500 textbooks available for SSS-participants to borrow.

Technology Use

- Available through the Office of Special Programs

Financial Literacy Workshop Services

- Workshop facilitated by SSS-professional staff and financial aid.

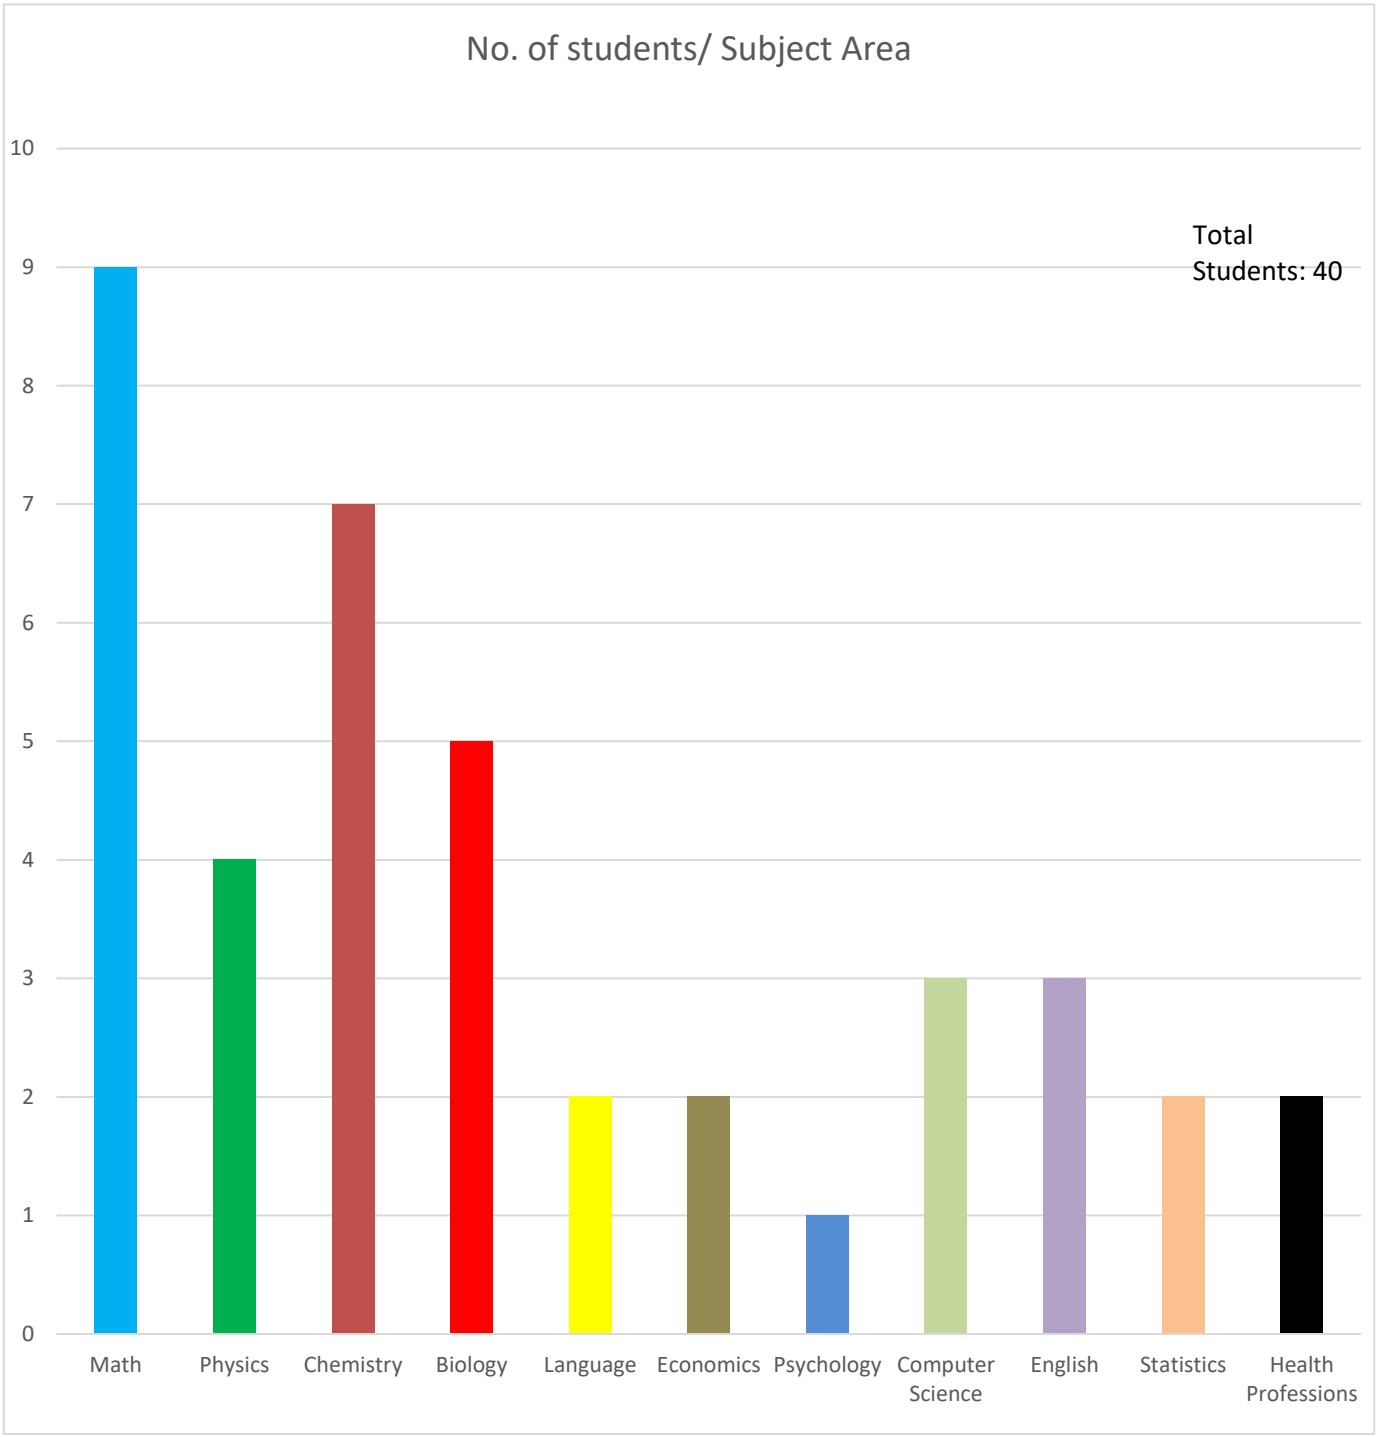

Outcomes

Evaluation of Tutorial Services

Fall 2019

Source: FileMaker Pro

Spring 2020

Source: FileMaker Pro

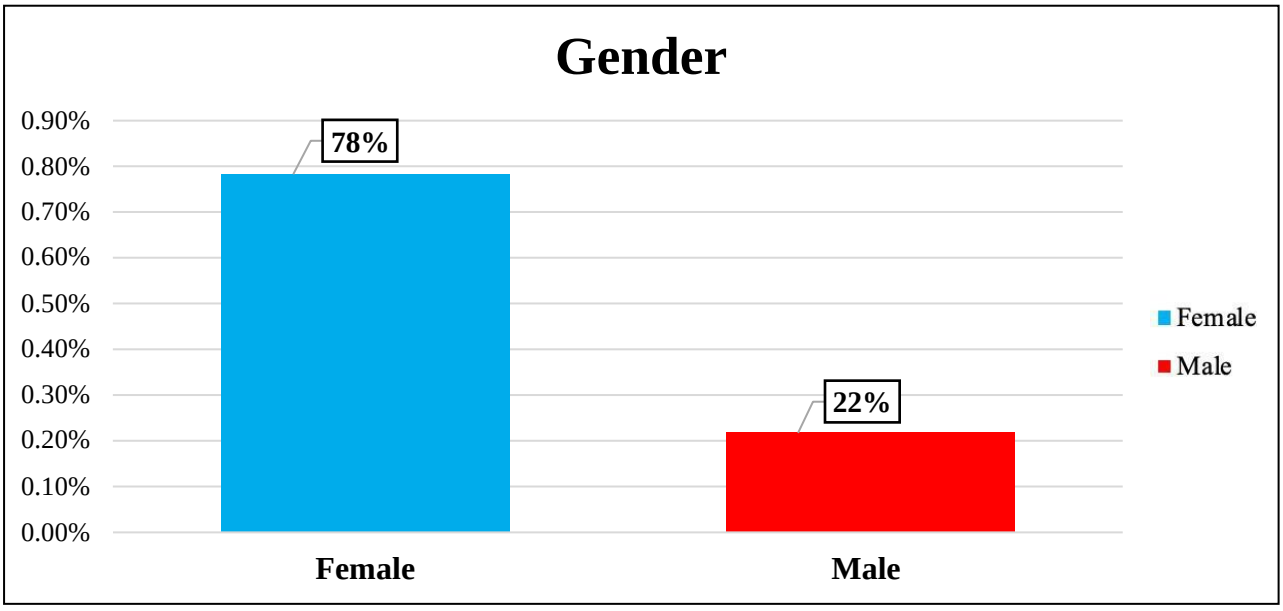

To promote students' academic success, SSS offers participants a variety of personalized services. Although program services are evaluated by participants on an ongoing basis, students received a yearly survey which provides an evaluation of SSS services. The services provided and evaluated by students include individualized tutoring, academic advice and assistance, FAFSA application assistance, financial and economic literacy, graduate school enrollment advice, SSS technology learning lab, textbook library, academic and life smart skills development, and scholarships exclusively for SSS students. Data collected from the evaluation is analyzed and used to improve project services.

In 2019-2020, participants completed the SSS Evaluation Survey online. The survey was created using the Qualtrics software and sent to all current students as a link via email. Although completing the survey was voluntary and anonymous, advisors encouraged their students to respond to the survey. While the survey was sent to 250 students, it was completed by 23 students. Collected data were aggregated and assessed for demographic information including gender, age, ethnicity, race, number of years in SSS, and major. Data was assessed for participants use of program services and the impact of program services.

Gender

As shown in chart 1, 78% of survey respondents were female and 22% were male.

Chart 1

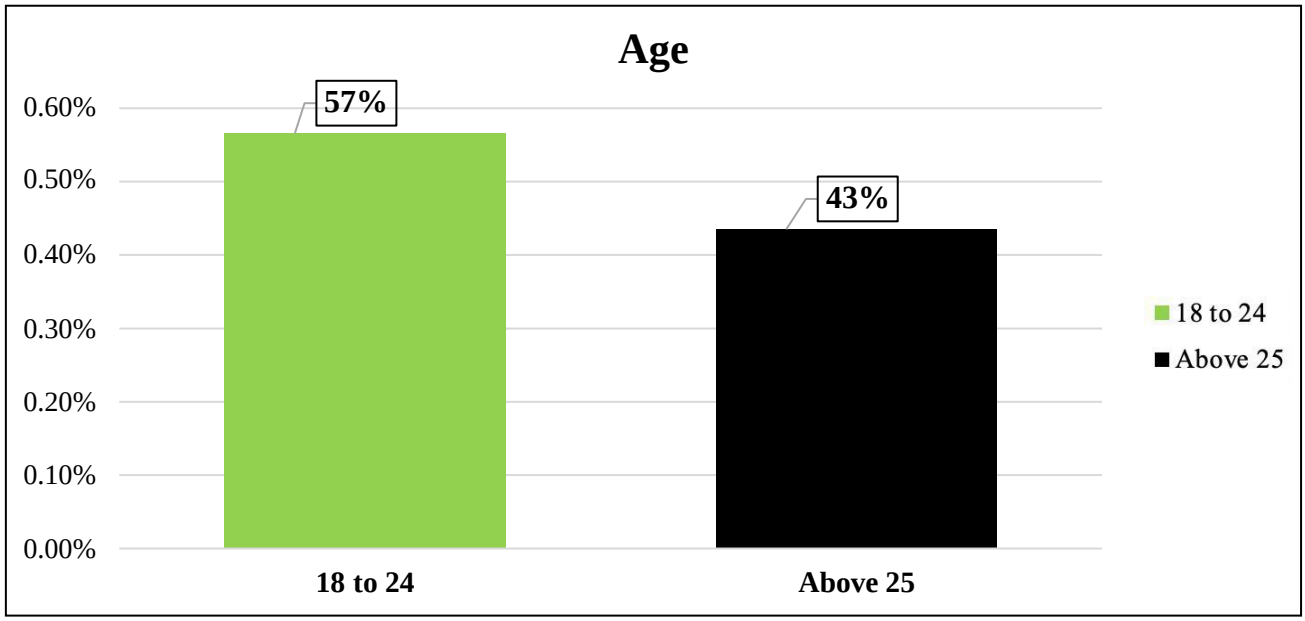

Source: SSS Evaluation Survey 2019-2020

Age

Chart 2 shows the percentage of traditional students and adult learners. While 57% of the respondents identified as traditional students (18-24 years), 43% identified as adult learners and above 25 years of age.

Chart 2

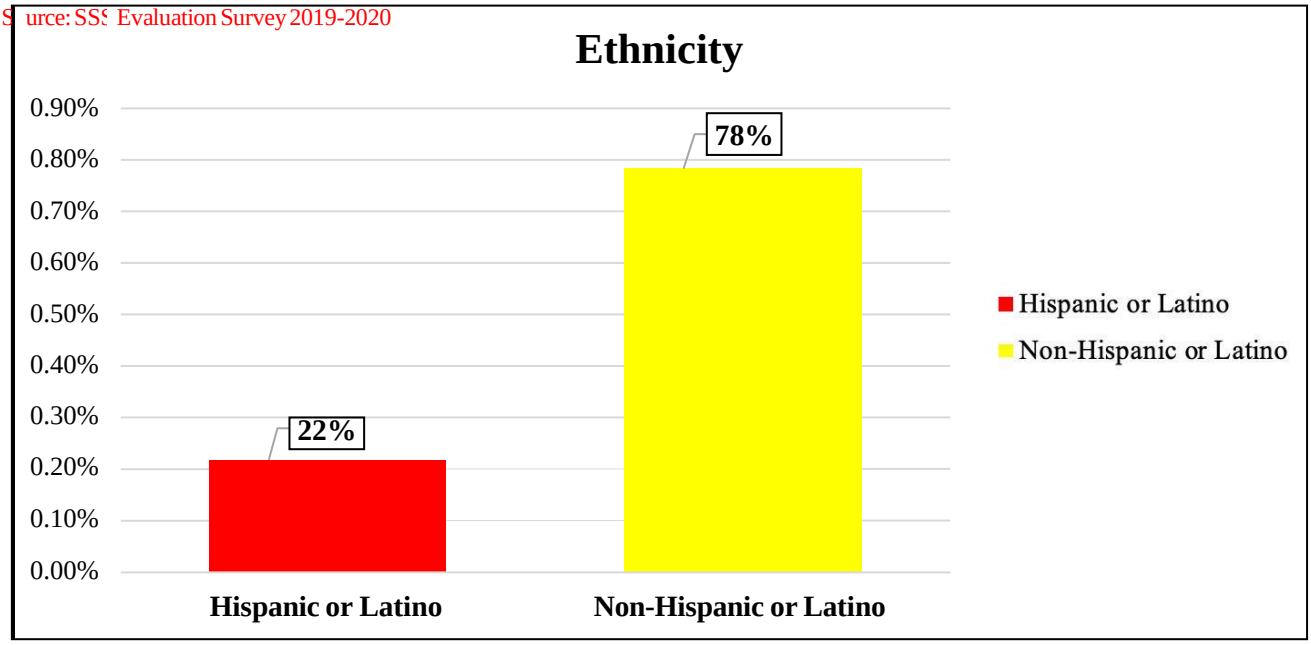

Source: SSS Evaluation Survey 2019-2020

Ethnicity

As depicted in Chart 3, 78% identified as Non-Hispanic or Latino while 22% of respondents identified as Hispanic or Latino.

Chart 3

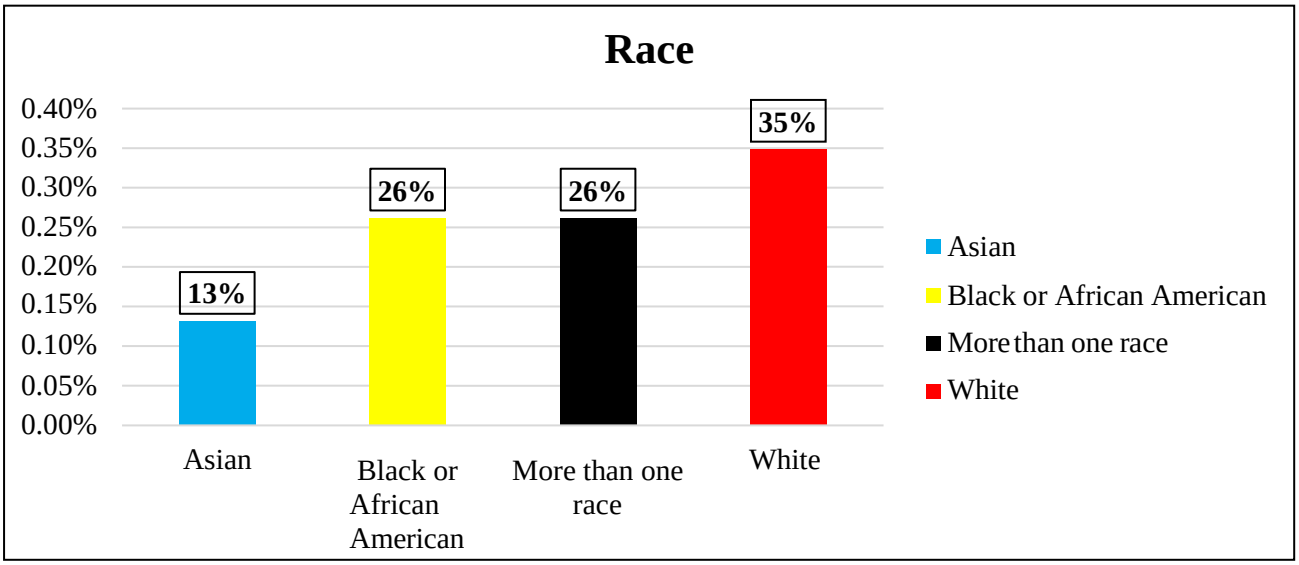

Source: SSS Evaluation Survey 2019-2020

Race

As shown in chart 4, respondents identified as Asian (13%), Black or African American (26%), More than one race (26%), and White (35%).

Chart 4

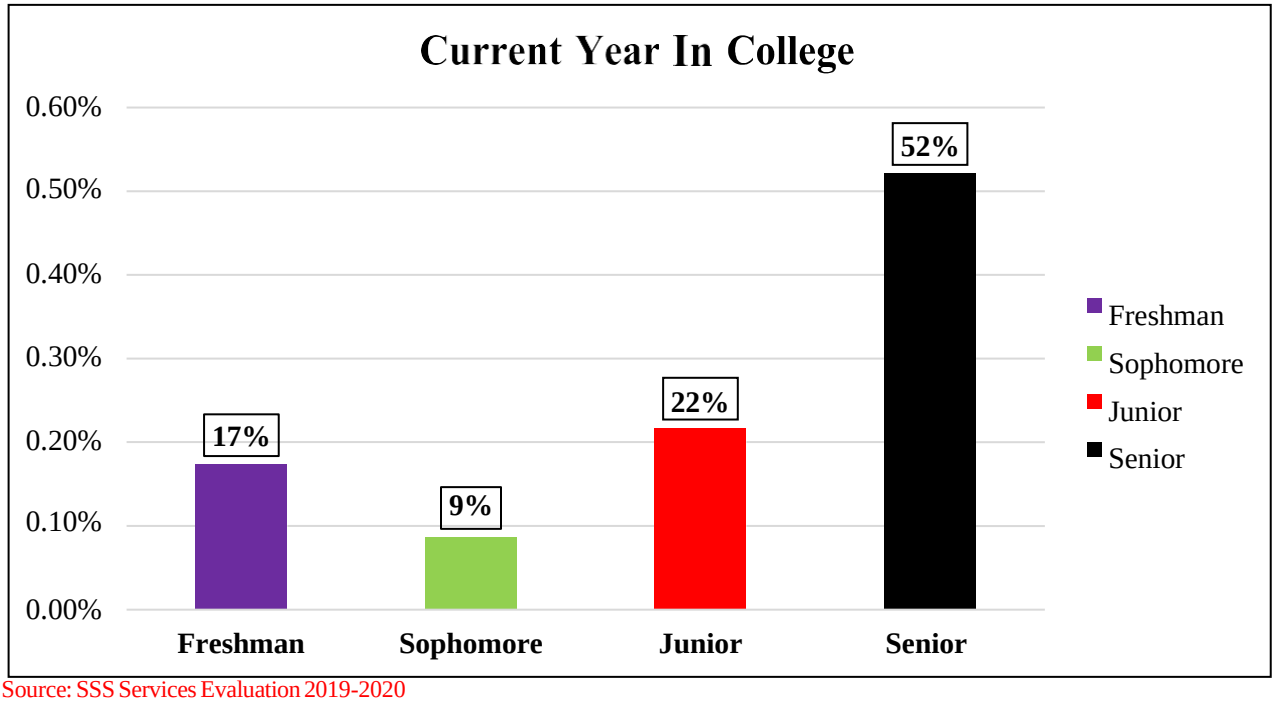

Source: SSS Services Evaluation 2019-2020

College Grade Level

Chart 5 shows the classification of respondents in their freshman, sophomore, junior, and senior years. The data showed 17% of the respondents identified as freshman and 9% as sophomores. Similarly, 22% of the respondents identified as junior and 52% as seniors.

Chart 5

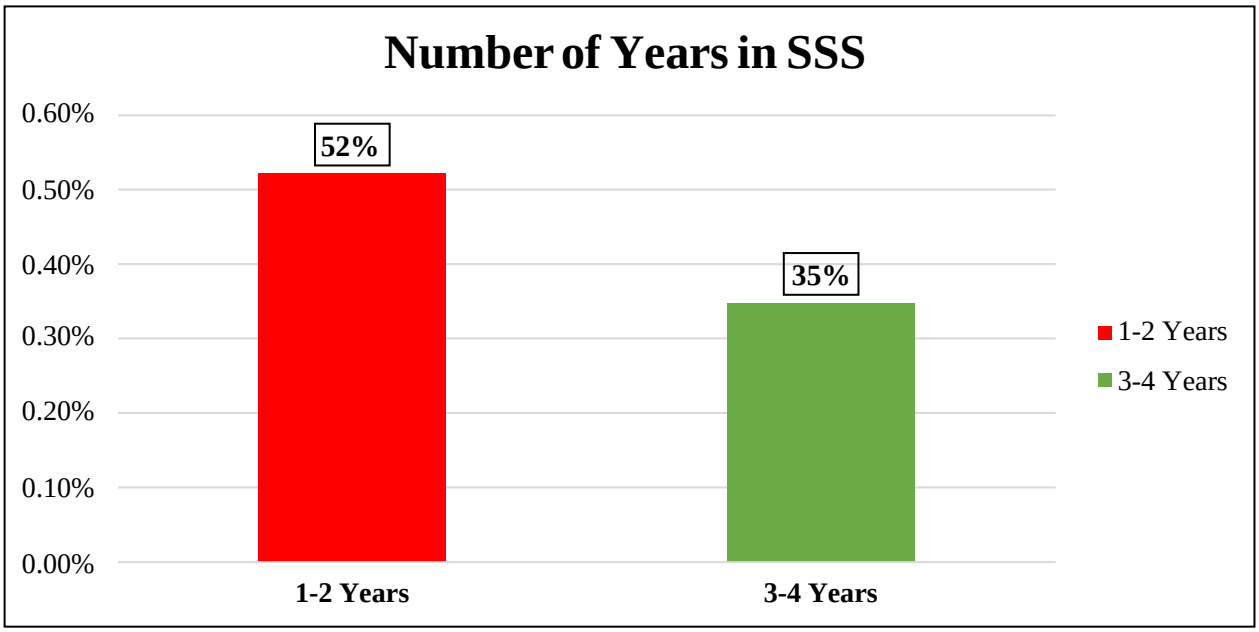

Source: SSS Services Evaluation 2019-2020

Number of Years in SSS

As shown in Chart 6, 53% of the respondents were program participants for 1 to 2 years, while 35% of the respondents were program participants for 3 to 4 years.

Chart 6

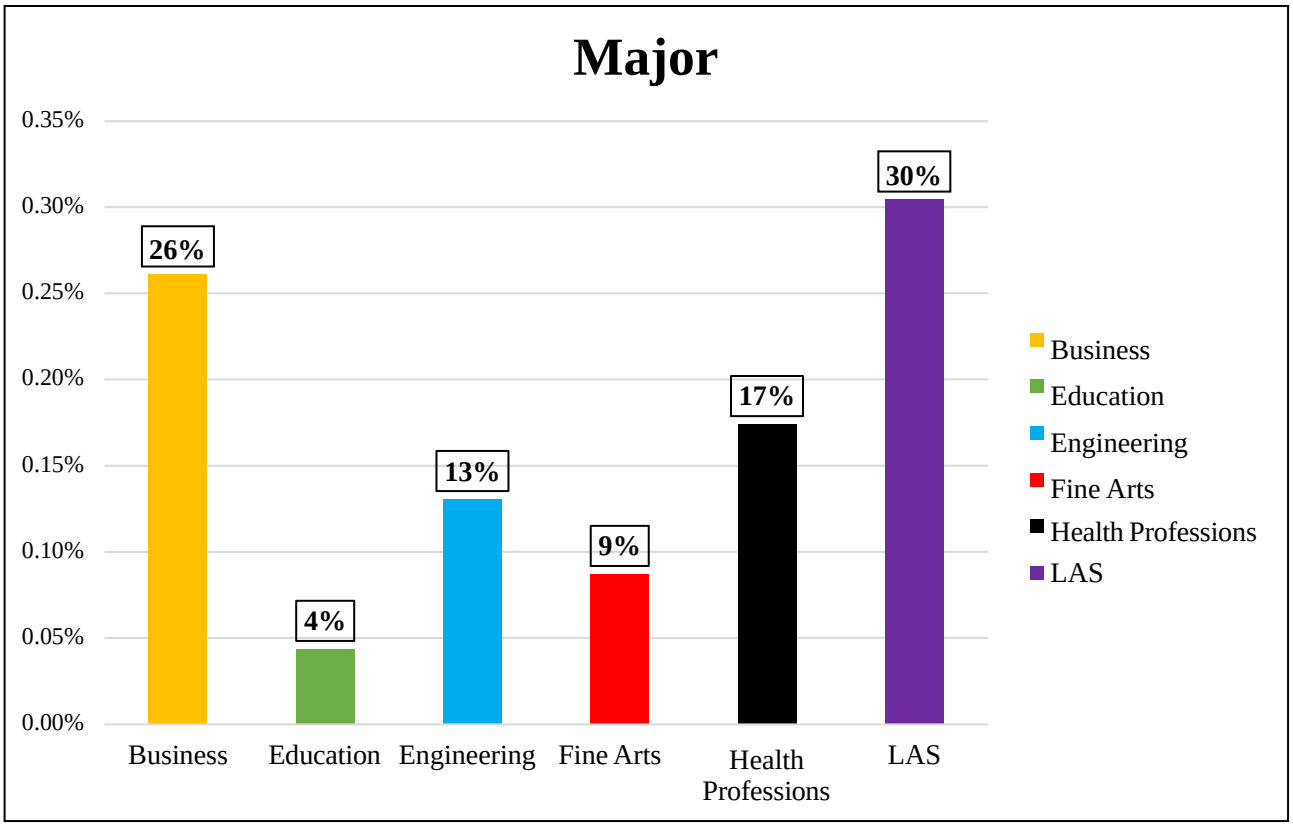

Source: SSS Services Evaluation 2019-2020

Major

Chart 7 shows participants by major. Respondents identified their majors as Business (26%), Education (4%), Engineering (13%), Fine Arts (9%), and Health Professions (17%). Thirty percent of the respondents were LAS major.

ANNUAL AWARDS & STUDENT RECOGNITION CEREMONY

This year marked the 52nd Anniversary of TRIO SSS programs in the nation and it was also the year the unforgettable COVID-19 Pandemic turned the world upside down.

On Saturday, May 23rd, 2020, from 11:00 am until 12:30 pm, faculty, staff, and students at Wichita State University (WSU) gathered in an unusual fashion to celebrate the TRIO Student Support Services (SSS) 41st Annual Student Recognition & Awards Ceremony – although, appropriately renamed this year to the "SSS Virtual Celebration of Graduation." 2020 was the year our annual awards and student recognition ceremony had to go *completely virtual*. SSS programs were first established in the 1968 reauthorization of the Higher Education Act, in an effort to begin President Lyndon B. Johnson's goal of seeing that "no American talent is wasted." The programs were established to guide millions of students and their families through the college preparation and application process. Today, SSS programs help students to persist and graduate from postsecondary institutions.

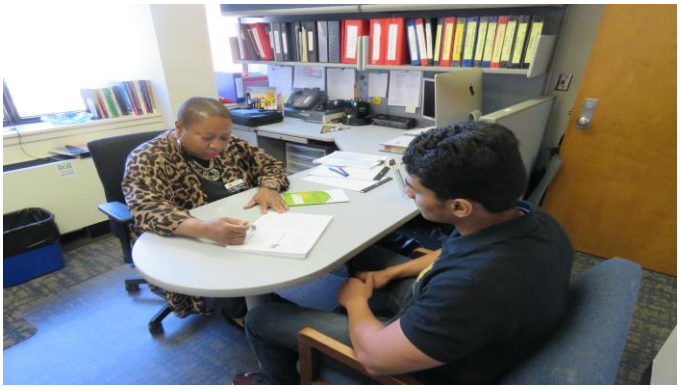

The celebration took place via the online platform Zoom while attendants joined the celebration from their living rooms and home offices. At the event, students were recognized by Mr. Nelson Ross for accomplishing a GPA of 4.0 or higher, a GPA of 3.5 or higher, and for graduating from WSU during the unprecedented 2019-2020 academic year. Among the attendees were: Ms. Deltha Q. Colvin, Associate Vice President for Special Programs and Dr. Kevin Harrison, Community Engagement Coordinator for the Division of Diversity and Community Engagement.

The program started with the faint and pleasant sound of "Pomp and Circumstance" playing while attendees joined the Zoom call. The Project Director of Student Support Services, Dr. Linda F. Rhone then began our celebration with an introduction and recognition of guests, faculty, and staff. The Project Director's welcome message and introductions were followed by words of wisdom from Ms. Deltha Q. Colvin and Dr. Kevin Harrison. Both speakers recognized the success of the SSS program participants, the importance of the TRIO programs, and congratulated all students for their outstanding achievements despite the year's ongoing challenges of going fully remote for classes.

The Senior Administrative Assistant, Mrs. Chelsea Martinez also congratulated the participants and introduced the special student speaker and Fall 2019 graduate, Ms. Tabatha Cruz. Ms. Cruz gave an inspiring speech detailing the experience of her distinctive last year of her undergraduate courses and how TRIO SSS helped her as a participant. She also gave an account of her involvement with SSS as an office student assistant. And finally, the newest member of the SSS staff, Ms. Kamika Thomas-Hicks gave the farewell remarks and congratulated the graduates.
